III. Course Description and Purpose

This course is designed to acquaint students with the elements of music and the primary musical periods of traditional Western European classical music. Students will have a brief overview of the major composers and their music through class lectures, listening to musical examples in class, reading the text, listening to musical examples provided on the student CD's or recordings, actively engaging in class discussions, attending live concerts of suggested performances, and completing research papers and/or oral presentations pertinent to the course material.

IV. Student Learning Objectives

Clark College has identified six campus-wide abilities that form the foundation of our educational emphasis: 1) critical thinking/problem solving, 2) information/technology, 3) communication, 4) life-long learning, 5) effective citizenship, 6) global/multicultural awareness. Although we will involve aspects of most of these abilities during the term, both directly and indirectly, the primary emphasis will be the communication ability, the life-long learning ability, and the critical thinking ability.

The students who successfully complete this course will:

1. Demonstrate an understanding of the elements of music and how these elements relate to the compositions presented in class, applying the knowledge of musical styles to composer and composition identification (critical thinking).
2. a) Write 2 (two) research papers either on specified composers or as reviews of approved concert performances, demonstrating an understanding of the elements of music, various performing media, and the appropriate common style periods in a clearly organized, literate written style (communication ability).

OR

b) Prepare 2 oral presentations covering the same material as 2a). Composer paper presentations should incorporate audio or audio/visual components utilizing "Smart Classroom" technology (i.e. Powerpoint, etc.) (communication ability).
3. Apply the course information to future classical music concerts the students may attend, providing an outlet for expression, personal awareness, and aesthetic enlightenment (life-long learning).

"The college also has developed 24 college-wide learning outcomes for our degree-seeking students. Course level student learning outcomes should link to at least one appropriate college-
