Gustafson, Derral R. Herbst, Philip W. Rundel, 2014-10-31 *Hawaiian Plant Life* has been written with both the layperson and professional interested in Hawai i s natural history and flora in mind In addition to significant text describing landforms and vegetation the evolution of Hawaiian flora and the conservation of native species the book includes almost 875 color photographs illustrating nearly two thirds of native Hawaiian plant species as well as a concise description of each genus and species shown The work can be used either as a stand alone reference or as a companion to the two volume Manual of the Flowering Plants of Hawai i Learning more about threatened and endangered plants is essential to conserving them and there is no more endangered flora in the world today than that of the Hawaiian Islands Striking species complexes such as the silverswords and the remarkable lobeliads represent unique stories of adaptive radiation that make the Hawai i a living laboratory for evolution Public appreciation for Hawaiian biodiversity requires outreach and education that will determine the future conservation of this rich heritage and *Hawaiian Plant Life* has been designed to help fill that need

Plant Identification William Hawthorne, Anna Lawrence, 2013-06-17 An important prerequisite for successful conservation is a good understanding of what we seek to conserve Nowhere is this more the case than in the fight to protect plant biodiversity which is threatened by human activity in many regions worldwide This book is written in the belief that tools that enable more people to understand biodiversity can not only aid protection efforts but also contribute to rural livelihoods Among the most important of those tools is the field guide *Plant Identification* provides potential authors of field guides with practical advice about all aspects of producing user friendly guides which help to identify plants for the purposes of conservation sustainable use participatory monitoring or greater appreciation of biodiversity The book draws on both scientific and participatory processes supported by the experience of contributors from across the tropics It presents a core process for producing a field guide setting out key steps options and techniques available to the authors of a guide and through illustration helps authors choose methods and media appropriate to their context **OECD Glossary of Statistical**
