

DESCRIPTION

The Fail-Safe Work PAL combines strength and energy-saving technology with the convenience of a handle, heavy duty magnet for easy mounting, cord and plug to create a durable and easily transportable work area light. Its angled facets with radius corners actually increase the ability of the lens to deflect blows and absorb impact. An extra thick, injection molded polycarbonate lens incorporates an optical design that obscures the lamp image and spreads light evenly, providing excellent light output from low positions, while minimizing glare. U.L. listed and C.S.A. certified for wet locations.
