**Jicheng Xie**

### **Finch Ambergris 3 Jeff Vandermeer:**

**Ambergris** Jeff VanderMeer, 2020-12-01 From the author of *Borne* and *Annihilation* comes the one volume hardcover reissue of his cult classic *Ambergris Trilogy*. More than twenty years ago Jeff VanderMeer first introduced the world to the fictional city of *Ambergris*, a beautiful and sinister sprawling metropolis populated by artists and thieves, composers and murderers, geniuses and madmen. *Ambergris* bristles with intellectual fervor and religious rivalries; it thrives on cultural upheaval, and its politics are never short on intrigue, conspiracy, and even terror. There are stories within stories, mystery, mayhem, and a dark history that threatens to consume the city itself as the gray caps the mysterious and deadly mushroom people who once ruled *Ambergris* and have since been driven underground now threaten to rise again. Ultimately, the fate of *Ambergris* comes to lie in the hands of John Finch, a beleaguered detective with a murder on his mind to solve and too many loyalties for one man to bear. The city is bursting at its seams, seemingly held together only by the tense fraying tendrils of his investigation. The *Ambergris* trilogy is made up of three novels, each of which has become a cult classic in its own right: *City of Saints and Madmen*, *Shriek*, and *An Afterword*. Finch It is a marvelous unparalleled feat of imagination. And yet the books themselves, as celebrated and influential as they have become, have a publishing history as arcane and elaborate as *Ambergris* itself. Over the years they have slipped in and out of print and have never before been available as a complete trilogy. Until now. For fans both new and old of the work of Jeff VanderMeer, *Ambergris* is essential reading. Welcome to *Ambergris*. We can't promise you'll leave untransformed.

Finch Jeff VanderMeer, 2009 In a world where mysterious underground dwellers rule the state of *Ambergris* and control its residents with addictive drugs, internment camps, and random acts of terror, John Finch and his partner Wyte must solve a double murder for their oppressive masters all while trying to make contact with the scattered rebel resistance.

Surreal Entanglements Louise Economides, Laura Shackelford, 2021-05-18 This edited collection approaches the most pressing discourses of the Anthropocene and posthumanist culture through the surreal yet instructive lens of Jeff VanderMeer's fiction. In contrast to universalist and essentializing ways of responding to new material realities, VanderMeer's work invites us to re-imagine human subjectivity and other collectivities in the light of historically unique entanglements we face today: the ecological, technological, aesthetic, epistemological, and political challenges of life in the Anthropocene era. Situating these messy, multi-scalar material complexities of life in close relation to their ecological, material, and colonialist histories, his fiction renders them at once troublingly familiar and strangely generative of other potentialities and insight. The collection measures VanderMeer's work as a new kind of speculative surrealism, his texts capturing the strangeness of navigating a world in which nature has become radically uncanny due to global climate change and powerful bio-technologies. The first collection to survey academic engagements with VanderMeer, this book brings together scholars in the fields of environmental literature, science fiction, genre studies, American literary history, philosophy of technology, and digital cultures to reflect on the environmentally

culturally aesthetically and politically central questions his fiction poses to predominant understandings of the Anthropocene

**Wonderbook** Jeff VanderMeer, 2018-07-03 Now expanded The definitive visual guide to writing science fiction and fantasy with exercises diagrams essays by superstar authors and more From the New York Times bestselling Nebula Award winning author Wonderbook has become the definitive guide to writing science fiction and fantasy by offering an accessible example rich approach that emphasizes the importance of playfulness as well as pragmatism It also embraces the visual nature of genre culture and employs bold full color drawings maps renderings and visualizations to stimulate creative thinking On top of all that it features sidebars and essays most original to the book from some of the biggest names working in the field today among them George R R Martin Lev Grossman Neil Gaiman Michael Moorcock Charles Yu Kim Stanley Robinson and Karen Joy Fowler For the fifth anniversary of the original publication Jeff VanderMeer has added fifty more pages of diagrams illustrations and writing exercises creating the ultimate volume of inspiring advice One book that every speculative fiction writer should read to learn about proper worldbuilding Bustle A treat gorgeous to page through Space com

Life, Re-Scaled Liliane Campos, Pierre-Louis Patoine, 2022-10-11 This edited volume explores new engagements with the life sciences in contemporary fiction poetry comics and performance The gathered case studies investigate how recent creative work reframes the human within microscopic or macroscopic scales from cellular biology to systems ecology and engages with the ethical philosophical and political issues raised by the twenty first century s shifting views of life The collection thus examines literature and performance as spaces that shape our contemporary biological imagination Comprised of thirteen chapters by an international group of academics Life Re Scaled The Biological Imagination in Twenty First Century Literature and Performance engages with four main areas of biological study Invisible scales cells microbes and mycelium Neuro medical imaging and diagnosis Pandemic imaginaries and Ecological scales The authors examine these concepts in emerging forms such as plant theatre climate change art ecofiction and pandemic fiction including the work of Jeff Vandermeer Jon McGregor Jeff Lemire and Extinction Rebellion s Red Rebel Brigade performances This valuable resource moves beyond the biological paradigms that were central to the nineteenth and twentieth centuries to outline the specificity of a contemporary imagination Life Re Scaled is crucial reading for academics scholars and authors alike as it proposes an unprecedented overview of the relationship between literature performance and the life sciences in the twenty first century
