realize their abilities and pursue their own independent contributions to the marine mammal community He shared in their successes and worked tirelessly to facilitate their aspirations Greg would involve students early career scientists and colleagues in projects introduce them to collaborators and promote them and their work Greg was a genuinely caring person When he asked you how are you doing he honestly wanted to know He was always there ready to listen and provide guidance If you were to ask Greg what was most important to him in life he would say God family and marine life and one could argue that he had a special fondness for manatees He believed in the beauty of nature and that God had a hand in all of it He was in pursuit of ensuring that we all share this earth responsibly and sustainably We miss Greg dearly but honor and celebrate him as we carry on in our pursuits

Obstacles to Fairness in Criminal Proceedings John D Jackson, Sarah J Summers, 2018-03-22 This volume considers the way in which the focus on individual rights may constitute an obstacle to ensuring fairness in criminal proceedings The increasingly cosmopolitan nature of criminal justice forcing legal systems with different institutional forms and practices to interact with each other as they attempt to combat crime beyond national borders has accentuated the need for systems to seek legitimacy beyond their domestic traditions Fairness expressed in terms of the right to a fair trial in provisions such as Article 6 of the European Convention on Human Rights has emerged across Europe as the principal means of guaranteeing the legitimacy of criminal proceedings The consequence of this is that criminal procedure doctrines are framed overwhelmingly in constitutional terms the protection of defence rights is necessary to restrict and legitimate the state s mandate to prosecute crime Yet there are various problems with relying solely or predominantly on defence rights as a means of ensuring that proceedings are fair or legitimate and these issues are rarely discussed in the academic literature In this volume scholars from the disciplines of law philosophy and sociology challenge various normative assumptions underpinning our understanding of fairness in criminal proceedings

The Preventive Turn in Criminal Law Henrique Carvalho, 2017 Engaging with contemporary literature on criminal law prevention risk security and criminalisation this volume argues that the pervasiveness of prevention in 21st century criminal justice systems represents the manifestation of essential aspects of the liberal legal and political tradition
