

# FIRE SAFETY

Fire takes lives and destroys businesses so we all know how devastating it can be...

1

## USE GENERAL FIRE PRECAUTIONS

- The general fire precautions include properly planned controls and measures aimed at reducing and/or eliminating the risk of fire at your workplace.
- Examples include: fire fighting equipment and fire detecting systems, safe escape routes, exits and emergency lighting, fire evacuation plan, staff fire safety training and more.

2

## USE GENERAL FIRE PRECAUTIONS

- Fire risk assessment is an evaluation process of identifying fire safety hazards as well as the likelihood of fire and the consequences if one were to occur.
- It ensures that your fire equipment is in good working order and at the right location to be used if needed.

3

## USE CERTIFIED PRODUCT PROVIDERS AND SERVICES

- If an incident happens your insurance company will investigate a claim.
- Failure to prove that you have used competent services and product providers means that you may not be able to get a full insurance cover.

4

## TRAIN AND EDUCATE YOUR STAFF

- Employees should receive fire safety training to learn how to minimize the risk of fire at their workplace.
- The key parts of fire safety include: recognizing fire hazards, safe escape from a building and knowing how to use fire extinguishers.
