Giles Casaleggio,2018-08-01 In an effort to obtain research material for this book I searched for a source that might provide a fresh perspective on the evolving effects of criminal justice services on various population groups within the United States I considered interviewing individuals experiencing widely

publicized negative interactions with policing agencies such as members of the American underclass descended from conditions of involuntary servitude and those multilingual groups derived from foreign immigration or those who seek asylum. Instead however I chose to express the reflections of a retired veteran of law enforcement whose ethnic identity is not often considered as that of an oppressed minority. Although they were the earliest of observers of the institution of European law and order in America Native Americans are rarely popularized as the recipients of police injustices. Similarly their contributions to American law enforcement are rarely acknowledged. Securing the valuable insights, criticisms and recommendations of a qualified Amerindian law enforcement observer and practitioner such as Captain Manitouabewich has been enlightening and stimulating.

**The Risk Takers** Martin Renee, Martin Don, 2011-05-14 The Risk Takers is about ordinary people all with good ideas who faced daunting challenges but took a leap of faith and started their own business. The book tells the stories of the personal and professional journeys of sixteen fascinating men and women who built hugely successful multimillion dollar companies. They started with very little, opted to strike out on their own and struggled with disappointment and failure. Yet they overcame adversity and through persistence and resiliency determined their own destiny. You'll meet the founders of companies familiar to most Americans: Geek Squad, Curves, Liz Lange Maternity, Kinko's, Paul Mitchell, Spanx, Amy's Kitchen, along with nine others. Don and Renee Martin, successful entrepreneurs in their own right, personally interviewed these men and women whose inspiring stories demonstrate it's never been easy to start your own business and navigate it through all the inevitable storms to ultimate success in any economy in any era. But it can be done. The personal stories in this volume remind us of what is possible when you combine an inspired business idea with faith and tenacity. It's the right book at the right time; it's time to resurrect The American Dream.

**Brand Vision** David Taylor, 2007-01-16 David Taylor's third book lifts the lid on why so many brand visioning projects end in failure: an overly theoretical and complex approach he calls strategy tourism. By contrast, his straightforward, no-nonsense programme will ensure that you end up with an inspiring vision and a hands-on action plan to drive growth. Designed in a highly practical format, brandvision shows how to lead your team on a step-by-step visioning journey that builds engagement, energy and alignment. Powerful tips, tools and tricks help you start applying the principles to your business today. Searching for true insight: creating a springboard for visioning by using different insight catalysts that cover consumers, markets and competition. The visioning journey: creating a compelling brand purpose, a big idea and a rallying call combining product, sausage and emotional sizzle. Test driving the vision: bringing the vision to life by exploring it within your business and with consumers. Brand-led business: translating the vision into a business building mix that covers hero product, innovation, communication and internal engagement. Thought provoking and irreverent, brandvision demonstrates all the dos and don'ts of brand visioning with many stories of success and screw-ups including T-Mobile, Dove, Porsche, Absolut and James Bond. It is an invaluable toolkit for anyone interested in rethinking a brand vision whatever its shape or size.
