

SELF-EVALUATION

Self-evaluation is a reflective process where an individual assesses their own performance, skills, and personal growth.

DEFINITION

Self-evaluation is a powerful tool for understanding your own strengths, weaknesses, achievements, and areas of improvement. It is most commonly employed in work, school, and personal development. Through this practice, individuals can identify their progress towards specific personal goals, professional goals, and educational goals.

EXAMPLE

A self-evaluation of time management:

- **Strengths:** I have consistently met all project deadlines, which demonstrates my effective scheduling and prioritization skills.
- **Weaknesses:** I often find myself needing to work extra hours in the final week before the deadline.

Bloomsbury CPD Library: Independent Learning John L. Taylor, Bloomsbury CPD Library, 2018-02-08 Independent learning is an ideal which many teachers aspire to but find difficult to achieve This book provides ten training plans that enable you to easily deliver hours of CPD sessions in your school All presentations and hand outs are provided in the book and online making Bloomsbury CPD Library Independent Learning all you need to help your students think independently for a richer learning experience and to impress inspectors It is common for school inspectors to comment on the need for students to learn more independently and from higher education admissions officers and employers there is a constant call for students to be better equipped to be able to learn and think for themselves Students themselves enjoy and benefit from lessons in which they are given the opportunity to begin to take charge of the learning process particularly when there is space for them to explore and inquire into topics that grab their attention At the same time there is enormous pressure on schools to teach to the test leading many teachers to feel that they have to play safe and cannot risk giving their students genuine responsibility for their own learning lest results suffer Critics also argue that students need to be taught directly as the capacity for meaningful inquiry is not one that most students possess and even when it is present the open ended nature of the inquiry process can make learning inefficient In this book John L Taylor shows how the rhetoric about independent learning can be turned into a practical reality The book explores the foundations of effective learning and demonstrates how it is possible to implement an approach to learning which encourages students to learn to think for themselves It shows how by teaching students to think better teachers can ensure that they both succeed in jumping

assessment hurdles and also enjoy a richer more meaningful educational experience

Objects to Learn about and

Objects for Learning 2 Joel Bisault, Roselyne Le Bourgeois, Jean-Francois Themines, Mickael Le Mentec, Celine

Chauvet-Chanoine, 2022-03-01 Resulting from a conference that took place in Amiens France in June 2019 this book examines the place and role of objects centered in teaching practices from kindergarten to university both in the context of France and elsewhere These objects for learning are considered in their physicality as productions work or signs that are used for learning They become objects to learn about when the object itself is the learning objective This book offers a cross disciplinary perspective linking the different disciplinary fields studied and the many reference sources used by the authors This two volume work offers an overview of current research on the subject with this second volume focusing on objects in representations of space and time then on learners activities in the making or use of objects before concluding with different cultural and philosophical perspectives on objects
