Estimated Time

Rationale

Understanding the levels and limits of government is an imperative part of maneuvering within it.

Objectives

The student will be able to:

1. Explore how the *Federalist Papers* explain the principles of the American constitutional system of government
2. Evaluate the limits on the national and state governments in the United States federal system of government
3. Categorize governmental powers as national, state, or shared government
4. Analyze historical conflicts over the respective roles of national and state governments in the United States

Engage

Lead a class discussion about the concept of Federalism within the school setting. Questions for discussion:

- Whose rules do you follow at school: the principal's or your teacher's?
- Whose rules do you follow above all? Why?
- Do the principal and the teacher share power?
- Whose rules does the teacher have to follow? How about the principal?

Use the Discussion Rubric for assessment.

Key Points

- I. What are the *Federalist Papers*?
 - A. A series of 85 articles written under the pseudonym "Publius"
 - B. The true authors were Alexander Hamilton, James Madison, and John Jay
 - C. The articles began appearing in New York newspapers in October 1787 and were reprinted in the 13 states
- II. Why are the *Federalist Papers* important?
 - A. After the Constitutional Convention was over, the Constitution still needed to be ratified by 9 of the 13 states, and not everyone supported the Constitution
 - B. A battle was erupting between the Federalists, who supported the Constitution, and the Anti-Federalists, who opposed it
 - C. Anti-Federalists were not being unpatriotic; they felt the government outlined in the Constitution was an enemy of the freedom they had just fought a war to ensure
 - D. The *Federalist Papers* were written to defend and explain the Constitution and argue for its ratification
