

HOW TO USE THIS MANUAL

This service manual describes the service procedures for the VTX1800.

Follow the Maintenance Schedule (Section 3) recommendations to ensure the vehicle is in peak operating condition and the emission levels are within the standards set by the U.S. Environmental Protection Agency, Canada Air Resources Board (CARB) and Transport Canada.

Performing the first scheduled maintenance is very important. It prepares for the initial wear that occurs during the break-in period.

Sections 1 and 3 apply to the whole motorcycle. Section 2 illustrated procedures for removal/installation of components that may be required to perform service described in the following sections. Section 4 through 20 describe parts of the motorcycle, grouped according to location.

If the section you want on this page, then turn to the table of contents on first page of the section.

Most sections start with an assembly or system illustration, service information and troubleshooting for the section. The subsequent pages give detailed procedures.

If you don't know the source of the trouble, go to section 21 Troubleshooting.

Your safety, and the safety of others, is very important. To help you make informed decisions, we have provided safety messages and other information throughout this manual. Of course, it is not practical or possible to warn you about all the hazards associated with servicing this vehicle. You must use your own good judgement.
