Cassell Ltd, 1893 *Index of Patents Issued from the United States Patent Office*, 1975 *The Search for a Unified Korea* Eui-Gak Hwang, 2010-03-11 North Korea's brinkmanship diplomacy has continued to disturb the world with its seemingly reckless missile testing as the country's leader Kim Jong Il is rumored to be terminally ill with pancreatic cancer North Korea appears to be in a state of serious internal crisis not only because its dictatorial system albeit skillful and ruthless leadership is inherently unstable if not skillful and ruthless leadership but also because the main pillar of Kim Jong Il's legitimacy is rapidly eroding due to both mass starvation and the exodus of grassroots and mass exodus of the North Korean people into nearby regions The main objective of this book is to explore the probability of North Korea's implosion and second to search for a feasible way for Korean reunification as a possible consequence of a big bang event on the peninsula The geopolitics of the Korean Peninsula is historically very complicated as Korea is bordered and surrounded by four big powers namely China Russia Japan and the United States Each country has its own varying degrees of political economic and military stakes with respect to the Korean Peninsula Thus the Land of the Morning Calm has remained divided since 1945 mainly as a result of the domain war among these super powers As the North nears a turning point however there is a new possibility for the two Koreas to reunite if the international environments work in their favor and if both countries are well prepared to assume reunification **Motor Travel**, 1921
