NAB Engineering Handbook is the definitive resource for broadcast engineers. It provides in depth information about each aspect of the broadcast chain from audio and video contribution through an entire broadcast facility all the way to the antenna. New topics include Ultra High Definition Television, Internet Radio, Interfacing and Streaming, ATSC 3.0, Digital Audio Compression Techniques, Digital Television, Audio Loudness Management and Video Format and Standards Conversion. Important updates have been made to incumbent topics such as AM Shortwave, FM and Television Transmitting Systems, Studio Lighting, Cameras and Principles of Acoustics. The big picture comprehensive nature of the NAB Engineering Handbook will appeal to all broadcast engineers, everyone from broadcast chief engineers who need expanded knowledge of all the specialized areas they encounter in the field to technologists in specialized fields like IT and RF who are interested in learning about unfamiliar topics. Chapters are written to be accessible and easy to understand by all levels of engineers and technicians. A wide range of related topics that engineers and technical managers need to understand are covered including broadcast documentation, FCC practices, technical standards, security, safety, disaster planning, facility planning, project management and engineering management.

Maintaining Mission Critical Systems in a 24/7 Environment Peter M. Curtis, 2007-04-13

The latest tested and proven strategies to maintain business resiliency and sustainability for our ever growing global digital economy. Here is a comprehensive study of the fundamentals of mission critical systems which are designed to maintain ultra high reliability, availability and resiliency of electrical, mechanical and digital systems and eliminate costly downtime. Readers learn all the skills needed to design, fine tune, operate and maintain mission critical equipment and systems. Practical in focus, the text helps readers configure and customize their designs to correspond to their organizations unique needs and risk tolerance. Specific strategies are provided to deal with a wide range of contingencies from power failures to human error to fire. In addition, the author highlights measures that are mandated by policy and regulation. The author of this text has worked in mission critical facilities engineering for more than twenty years serving clients in banking, defense, utilities, energy and education environments. His recommendations for maintaining essential operations are based on firsthand experience of what works and what does not. Most chapters in this text concentrate on an individual component of the mission critical system including standby generators, automatic transfer switches, uninterruptible power supplies and fuel, fire and battery systems. For each component, the author sets forth applications, available models, design choices, standard operating procedures, emergency action plans, maintenance procedures and applicable codes and standards. Extensive use of photographs and diagrams illustrates how individual components and integrated systems work. With the rapid growth of e-commerce and 24/7 business operations, mission critical systems have moved to the forefront of concerns among both private and public operations. Facilities engineers, senior administrators and business continuity

professionals involved in information technology and data center design should consult this text regularly to ensure they have done everything they can to protect and sustain their operations to reduce human error equipment failures and other critical events Adapted from material the author has used in academic and professional training programs this guide is also an ideal desktop reference and textbook **Electrical Trade Principles 5th Edition** Jeffery Hampson, Steven Hanssen, 2019-02-01 Electrical Trade Principles is a theoretical text that addresses the three key qualifications in the UE11 Electrotechnology Training Package Certificate II in Electrotechnology Career Start Certificate III in Electrotechnology Electrician and Certificate IV in Electrotechnology Systems Electrician The text helps students progress through the course and satisfactorily complete the Capstone Assessment making them eligible to apply for an electrician's licence Premium online teaching and learning tools are available on the MindTap platform Learn more about the online tools [cengage.com/au/learning-solutions](https://www.cengage.com/au/learning-solutions)
