disadvantaged why does something similar not exist for children with SEN Every health and wealth indicator that you could use to measure people with learning difficulties and special educational needs SEN reveals something alarming They die younger They work less They are more likely to live in poverty or end up in prison or face mental health difficulties They are much more likely to be excluded from school They are more likely to be bullied at school This has to end We all have to choose to commit to recognising that society as it is today is a difficult place for young people to thrive When you have autism or Down syndrome or any physical or learning difference it s even harder and the system as it stands isn t helping We need to acknowledge that this is not right that such a state of affairs must change and that we all have a part to play in making that change happen Jarlath offers suggestions for politicians Ofsted local authorities head teachers SENCos teachers and teaching assistants about what they can do to make a difference For all politicians head teachers SENCOS teachers and parents **Changing Perspectives Resource Manual ,1997** **Commonwealth Universities Yearbook ,1994**
