Les Ressorts De La Violence:

Sexual Violence, Dissociation, and Inequality Muriel Salmona, 2024-11-29 Sexual Violence Dissociation and Inequality is a book about traumatic memory or how lived trauma is repeated by victims as if happening again The author internationally renowned psychiatrist Muriel Salmona lays out a convincing argument for the ways in which victims are neurologically compelled to relive trauma and how with proper treatment they can fully heal Informed by decades of clinical practice research and activism Salmona explains how victims behaviors are rooted in neurology as normal responses to abnormal situations In contrast to a climate of victim blaming denial Salmona explains how grave the violation of victims human rights truly is and what to do about it in terms of care and prevention She explains in clear language how to reconstruct victims narratives which are often clouded by traumatic amnesia and thereby reconnect parts of the brain that were severed during the traumatic event This is a guide for professionals who work with survivors for survivors themselves and for anyone committed to understanding and reducing violence and inequality

Alienation and Alterity Paul Cooke, Helen Vassallo, 2009 Discussions of French identity have frequently emphasised the importance of a highly centralised Republican model inherited from the Revolution In reality however France also has a rich heritage of diversity that has often found expression in contingent sub cultures marked by marginalisation and otherness whether social religious gendered sexual linguistic or ethnic This range of sub cultures and variety of ways of thinking the other underlines the fact that norms can only exist by the concomitant existence of difference s The essays in this collection which derive from the conference Alienation and Alterity Otherness in Modern and Contemporary Francophone Contexts held at the University of Exeter in September 2007 explore various aspects of this diversity in French and Francophone literature culture and cinema from the nineteenth to the twenty first century The contributions demonstrate that while alienation from a cultural norm and also from oneself can certainly be painful and problematic it is also a privileged position

Robert Muchembled, 2012 Presents a history of violence in Europe and discusses the theory that violence has actually been in decline since the thirteenth century Processus de réhabilitation des auteurs de violences sexuelles André

Ciavaldini, 2022-05-03 La prise en charge spécifique des auteurs de violences sexuelles s'inscrit dans le cadre de la loi du 17 juin 1998 relative à la prévention et à la répression des infractions sexuelles et la protection des mineurs et s'appuie sur les CRIAVS. Après un premier ouvrage sur la psychopathologie des agresseurs sexuels et en tenant compte des recherches et évaluations menées depuis, l'auteur développe la notion de réhabilitation ou d'assistance, c'est-à-dire ce qui aide la personne à quitter la voie de la délinquance selon un modèle psychodynamique. Il s'agit d'appréhender la complexité qui conduit à l'acte délinquant comme tentative de survie psychique et d'utiliser cette compréhension pour forger des dispositifs favorables à la réhabilitation subjective de son auteur, qui ne peut être qu'un des volets efficaces de la réhabilitation globale où interviendront de multiples partenaires judiciaires pénitentiaires thérapeutiques. Après les rappels théoriques et cliniques nécessaires, l'ouvrage développe l'approche thérapeutique psychodynamique et l'aménagement des cadres institutionnels d'accueil en articulation avec le judiciaire, celui-ci faisant partie intégrante du soin. La troisième partie centre sur le concept de réhabilitation, explique l'intégration des dispositifs thérapeutiques individuels dans l'environnement social et présente le travail en réseau mis en œuvre dans plusieurs départements pour les auteurs de violences sexuelles sous injonction pénale de soins. La place spécifique du thérapeute est ensuite envisagée au sein de ce réseau pluridisciplinaire qui associe le médical, le social et le juridique. Cet ouvrage s'adresse aux psychiatres, aux psychologues, mais aussi aux magistrats et aux accompagnants du champ social. **Violence**

in Fifteenth-century Text and Image Edelgard E. DuBruck, Yael Even, 2002 Special issue focusing on violence in fifteenth century life, text and image, warfare and justice, violence in family and milieu, court, town, village and forest, hagiography, ethnicity and xenophobia, gender relations and sexual violence, brutality on the stage and the relation of text and image in the depiction of violence. Founded in 1977 as the publication organ for the Fifteenth Century Symposium, Fifteenth Century Studies has appeared annually since then. It publishes essays on all aspects of life in the fifteenth century, including literature, drama, history, philosophy, art, music, religion, science and ritual and custom. The editors strive to do justice to the most contested medieval century, a period that has long been the stepchild of research. The fifteenth century defies consensus on fundamental issues; some scholars dispute in fact whether it belonged to the middle ages at all, arguing that it was a period of transition, a passage to modern times. At issue therefore is the very tenor of an age that stood under the influence of Gutenberg, Columbus, the *Devotio Moderna* and Humanism. Volume 27 is a special issue offering a selection of outstanding papers on violence that will interest students of medieval history and the early Renaissance, the humanities, art history, sociology, anthropology and even the general reader. The articles highlight warfare and justice, violence in family and milieu, court, town, village and forest, hagiography, ethnicity and xenophobia, gender relations and sexual violence, brutality on the

Violences sexuelles et sport Olivier Coste, Philippe Liotard, 2024-06-11 Les violences sexuelles au m me titre que les violences physiques ou psychologiques sont une r alit du milieu sportif dont la prise de conscience en France

et dans le monde s'est faite grâce aux témoignages de sportives de haut niveau et des enquêtes médicales large échelle. Une recherche sur les violences interpersonnelles montre que près de 14 % des adultes interrogés ont subi des violences sexuelles avant 18 ans lors de leur pratique sportive. Les cas de violences de tout type sont proches de 30% chez les personnes issues de minorités ethniques ou LGBT et celles présentant un handicap ou pratiquant au niveau international. Ces violences sont parfois sous-tendues par une relation de pouvoir et de contrôle entre des entraîneurs et des sportifs ou des sportives, relation qui s'inscrit dans un contexte d'emprise systémique. Cet ouvrage propose une approche pluridisciplinaire inédite sur les violences sexuelles et de genre dans le champ du sport en les intégrant aux données disponibles sur d'autres violences et dans d'autres domaines. Les éléments abordés permettent au lecteur d'accroître l'efficacité de ses actions grâce à une meilleure compréhension des enjeux et des logiques de ces violences, l'établissement de plans d'action concertés, une structuration de l'écoute et de l'accompagnement, l'organisation de la prévention et de la formation de tous les acteurs et actrices du sport et de son écosystème. L'ouvrage est organisé en trois temps de finitions et de mécanismes : accueil, écoute et signalement, formation et prévention. Coordonné par Olivier Coste et Philippe Liotard, l'ouvrage réunit plus d'une trentaine d'experts et d'expertes des violences. Il s'adresse aux spécialistes de la santé mentale, des kinésithérapeutes, des titulaires psychologues, l'entourage du sportif, des entraîneurs, des préparateurs physiques et mentaux, des dirigeants de clubs, ainsi qu'aux sportifs et sportives et leurs parents. Il cible également toute personne intéressée par le sujet des violences sexuelles et des maltraitances et qui se trouve de près ou de loin face à ce problème dont parler reste difficile. Olivier Coste est médecin du sport et docteur d'université en biologie de la santé, médecin inspecteur en chef de santé publique et médecin conseiller de la DRAJES Occitanie Montpellier. Philippe Liotard est sociologue, anthropologue et historien du sport au laboratoire sur les Vulnérabilités et l'Innovation dans le Sport (L.VIS) de l'Université Claude Bernard Lyon 1.

L'enfance violente Brigitte Camdessus, Michel C. Kiener, 1993. Dans la France d'aujourd'hui, des enfants sont encore victimes de violences par des membres de leur famille. Cela paraît difficile à admettre dans un pays civilisé, démocratique et économiquement développé. Depuis plus de cent ans, les lois se sont succédées pour interdire le travail des enfants de moins de 16 ans et prévenir les multiples abus dont ils étaient encore les victimes au début de ce siècle. Pourtant, les témoignages et les divers rapports des services sociaux, des juges et du numéro vert enfance maltraitée en fournissent chaque jour la preuve. La presse, la radio et la télévision nous le relatent quotidiennement. Que se passe-t-il dans le secret des familles ? Quels sont les modes de relation et de communication qui induisent la maltraitance et l'inceste ? Comment s'exerce la toute-puissance des parents, travers l'obéissance et le respect qu'ils inculquent à leurs enfants ? Quels mécanismes pervers d'emprise empêchent les enfants de parler et de se faire entendre ? Les mêmes organisations relationnelles se retrouvent dans divers pays d'Europe et en Amérique du Nord, provoquant des traumatismes similaires chez les jeunes et leurs familles. Autrefois, le grand nombre d'orphelins et de sans-famille, les abandons, les placements, les remariages des veufs, ainsi que l'insécurité des villes et des campagnes menaçaient les enfants. Aujourd'hui, ils semblent mieux protégés. Pourtant, la seconde
