Mergent Transportation Manual ,2002 **Flying in the Face of Criminalization** Sofia Michaelides-Mateou,Andreas
Mateou,2016-04-15 Two parallel investigations take place after every aviation accident one technical one judicial The former
must be conducted with the sole intention of making safety recommendations to prevent the recurrence of similar accidents
The judicial investigation however has the intention of identifying those parties that have been at fault and to apportion
blameworthiness for criminal and civil liability Consequently this results in a predicament for those parties that have been
identified as having played a role in the accident a dilemma between not supplying information aimed at enhancing safety
and preventing future accidents and on the other hand supplying such information which may possibly be used against them
in subsequent criminal prosecution The situation is compounded by inconsistent approaches between different legal systems
aviation professionals may find themselves faced with criminal charges in one country but not in another and they may also
be unsure as to whether statements given during the technical investigation could be used against them in a court of law
Aviation safety is to a large extent built upon the trust placed by pilots ATCOs and other aviation professionals in the process
of accident investigation This book examines the growing trend to criminalize these same people following an accident
investigation and considers the implications this has for aviation safety *Mergent International Manual* ,2009
