

# Select a Scenario

Select one of the following scenarios to get product-specific help content as you build your app. If you already have your project mapped out and are ready to build, feel free to skip this step.

## Examples

### Integrate Facebook Login

A secure, fast and convenient way for people to create accounts and log into your app across multiple platforms.

- Create accounts without having to set a password
- Personalize peoples' in-app experiences

### Get Started with the Pages API

With the Pages API people can update and manage Facebook Pages from your page-related app. People can publish content to Facebook or Messenger with a Page's identity.

- Make a Pages management tool for customers or for your company
- Build apps so content creators and editors can easily publish as a Page

### Implement Marketing API

Get programmatic access to the Facebook ads platform to automate ads management, create data-based audiences and more.

- Target audiences strategically by automatically creating different ads permutations
- Manage and optimize ads in real time with rules-based ads management
