Building Regulations in Brief Ray

Tricker, Samantha Alford, 2014-04-16 This eighth edition of the most popular and trusted guide to the building regulations is the most comprehensive revision yet. It reflects all the latest amendments to Building Regulations Planning Permission and the Approved Documents A B C H K P Regulation 7 incorporating all amendments up to December 2013 including the changes to Leaflets L1A and L2A regarding the conservation of heat and energy in new buildings which came into effect April 2014. This new edition also contains details of the new national planning guidance system and initiatives to speed up the planning process such as the new on line planning application process. It contains an updated list of fees for planning consents and provides guidance on the changes to permitted development rights in Agricultural Business and Residential buildings which came into force on 1 October 2013. Giving practical information throughout on how to work with and within the regulations, this book enables compliance in the simplest and most cost effective manner possible. The no nonsense approach of Building Regulations in Brief cuts through the confusion and explains the meaning of the regulations. Consequently, it has become a favourite for anyone involved in the building industry as well as those planning to have work carried out in their home.

Fire Safety in Residential Property Richard Lord, 2021-03-30

This book aims to take the reader through all aspects of fire safety and management in residential settings from origin and ignition risk assessment protection and prevention as well as comparing effective enforcement options from across all parts of the UK. It outlines the basis of law standards and guidance relating to fire safety and building performance and critically evaluates the legal provisions and approaches to risk reduction with the focus on rented properties. This book provides wider access to fire safety knowledge previously generally used by regulators and specialists. Examines fire risk assessments in domestic premises and the competency of assessors. Explains the approaches to fire safety enforcement, the impact of property licensing. Includes fire risk precautions for housing and general checklists to help landlords and tenants understand their responsibilities. Explores the effect of existing legislation with references to key Property Tribunal decisions relating to fire risk management and future legal developments. This book will assist Environmental Health Officers and Environmental Health Practitioners as well as graduating academics of the field in their work to encourage the appropriate and effective use of legislation.

Defensible Space on the Move Loretta Lees, Elanor Warwick, 2022-02-02 Both theoretically informed and empirically rich, *Defensible Space* makes an important conceptual contribution to policy mobilities thinking to policy and practice and also to practitioners handling of complex spatial concepts. Critically examines the geographical concept *Defensible Space* which has been influential in designing out crime to date and has been applied to housing estates in the UK, North America, Europe and beyond. Evaluates the movement, mobility, mobilisation of defensible space from the US to the UK and into English housing policy and practice.

Explores the multiple ways the concept of defensible space was interpreted and implemented as it circulated from national to local level and within particular English housing estates Critiquing and pushing forwards work on policy mobilities the authors illustrate for the first time how transfer mechanisms worked at both a policy and practitioner level Drawing on extensive archival research oral histories and in depth interviews this important book reveals defensible space to be ambiguous uncertain in nature neither proven or disproven scientifically
