to Carolina John Lawson,2000-11-15 John Lawson s amazingly detailed yet lively book is easily one of the most valuable of the early histories of the Carolinas and it is certainly one of the best travel accounts of the early eighteenth century colonies An inclusive account of the manners and customs of the Indian tribes of that day it is also a minute report of the soil climate trees plants animals and fish in the Carolinas Lawson s observation is keen and thorough his style direct and vivid He misses nothing and recounts all from the storms at sea to his impressions of New York in 1700 the trip down the coast to Charleston and his travels from there into North Carolina with his Indian guides The first edition of this work was published in London in 1709 While various editions followed in the eighteenth century including two in German this edition is a true copy of the original and is the first to include a comprehensive index It also contains The Second Charter An Abstract of the Constitution of Carolina Lawson s will and several previously unpublished letters written by Lawson A number of DeBry woodcuts of John White s drawings of Indian life sketches of the beasts of Carolina which appeared in the original 1709 edition and Lawson s map contribute additional interest to this volume **Beliefs and Rituals in Archaic Eastern North America** Cheryl

Claassen,2015-06-15 Claassen s work focuses on the American Archaic period marked by the end of the Ice Age approximately 11 000 years ago and a geographic area bounded by the edge of the Great Plains Newfoundland and southern Florida This period and region share specific beliefs and practices such as human sacrifice dirt mound burial and oyster shell middens This interpretive guide serves as a platform for new interpretations and theories on this period For example Claassen connects rituals to topographic features and posits the Pleistocene Holocene transition as a major stimulus to Archaic beliefs She also expands the interpretation of existing data previously understood in economic or environmental

terms to include how this same data may also reveal spiritual and symbolic practices Similarly Claassen interprets Archaic culture in terms of human agency and social constraint bringing ritual acts into focus as drivers of social transformation and ethnogenesis
