Manual of Clinical Oncology Charles D. Sherman, Kenneth C. Calman, Sandor Eckhardt, Ismail Elsebai, Dincer Firat, Dieter K. Hossfeld, Jean-Pierre Paunier, Bruno Salvadori, 2012-12-06 The continuing success of the VICC s Manual of Clinical Oncology and the continuing refinement of our educational objectives in cancer designed for graduating medical students and young practitioners coupled with significant additional knowledge in the cancer field have all led to the decision to publish a Fourth Edition The collaboration of the World Health Organization WHO and the Pan American Health Organization PAHO in our international and regional conferences in cancer education and the development of courses using the Manual as a basic resource have aided further definition of the VICC s role in cancer education throughout the world Our Revision Committee believes that we have incorporated in this small volume most of the knowledge about cancer which is essential for all students and practitioners to know and that we have done so in a clear and concise manner A large proportion of the material presented herein is devoted to basic aspects yet presented so that the clinical implications are clear Although we do not feel that general physicians need to know minor details about all cancers we feel it is particularly important to be somewhat thorough in our discussions of the more common cancers We have omitted discussion of the rare cancers and limited ourselves to the major concepts and principles of the less common cancers **The Software Encyclopedia** ,1986
