

# THE BEST EFFECTIVE STUDY TIPS

to improve academic performance

Studying is not a one size fits all process. Having some solid, simple and easily implementable study tips to rely on can be the difference maker for many students. Here are a few proven study tips that can positively transform learning experience and consequently examination performance.

## SET GOALS

An approach that may be conducive for acquiring understanding might not necessarily translate into perfect scores. Setting a clear goal at the beginning of the course informs the frequency of study sessions and the mechanics of each study session.

## PREPARE FOR EACH CLASS

Taking at least 5 minutes to prepare for each class can cause studying efficiency and effectiveness to skyrocket

## PAY ATTENTION

Give your instructor undivided attention and be actively involved when in class. Leave class with at least 80% clear understanding of the topic. This would cut down on time needed for additional study.

## CREATE RIGHT ENVIRONMENT

The ideal study location should be quiet and free from potential distractions. Frequent interruptions and distractions kill focus. There can be no effective study without focus.

## STUDY WHEN ALERT

Attention drops to less than 20% after 45 minutes. Break study sessions into chunks of 45 minutes at the most with 10 minute breaks in between.

## REVISE DAILY

Memory retention decreases exponentially with time. Devote an hour at the end of each day to review new material. Doing this just before going to bed allows the brain to process the material and make important neural connections with previous knowledge.

## APPLY PARETO'S PRINCIPLE

The Pareto principle states that, for several events, roughly 80% of the effects come from 20% of the causes. This rule is highly applicable when studying especially for examinations. Time spent in reading should constitute 20% of total study. Targeted practice must constitute the remaining 80%. Practicing for tests has a significant positive effect on exam performance than simply being intelligent.
