The Desire Trilogy Theodore Dreiser, 2023-11-30 The Desire Trilogy comprising *Sister Carrie* *Jennie Gerhardt* and *The Financier* stands as a monumental exploration of desire ambition and the often harsh realities of American life in the early 20th century Dreiser's naturalistic style is characterized by detailed character studies and a focus on social conditions which collectively create a vivid tableau of the American Dream's complexities The trilogy delves into the inner workings of its protagonists' psyches as they grapple with societal restraints moral dilemmas and the insatiable pursuit of happiness all within a society that frequently prioritizes material success over individual fulfillment Theodore Dreiser 1871-1945 was an influential American novelist and a pivotal figure in the naturalism literary movement Raised in a lower middle class family his experiences with poverty and social injustice informed his writing and propelled him to critically examine the social fabric of America Dreiser's thoughtful portrayals of flawed ambitious characters reflect both the struggles of his time and his profound understanding of human nature shaping him into a formidable voice for realism in literature This trilogy is highly recommended for readers interested in the intersection of desire and societal constraints Dreiser's mastery of narrative and character invites a deep engagement with the text prompting readers to reflect on their own aspirations and the often harsh conditions that can hinder them The Desire Trilogy remains not only a critical piece of American literature but also a timeless commentary on the human condition In this enriched edition we have carefully created added value for your reading experience A comprehensive Introduction outlines these selected works unifying features themes or stylistic evolutions The Author Biography highlights personal milestones and literary influences that shape the entire body of writing A Historical Context section situates the works in their broader era social currents cultural trends and key events that underpin their creation A concise Synopsis Selection offers an accessible overview of the included texts helping readers navigate plotlines and main ideas without revealing critical twists A unified Analysis examines recurring motifs and stylistic hallmarks across the collection tying the stories together while spotlighting the different works' strengths Reflection questions inspire deeper contemplation of the author's overarching message inviting readers to draw connections among different texts and relate them to modern contexts Lastly our hand-picked Memorable Quotes distill pivotal lines and turning points serving as touchstones for the collection's central themes

Poetics of Love in the Arabic Novel Wen-chin Ouyang, 2012-06-20 Considers the Arabic novel within the triangle of the nation state modernity and tradition The novel is now a major genre in the Arabic literary field this book explores the

development of the novel especially the ways in which the genre engages with a **Sex and desire in British films of the 2000s** Nigel Mather, 2021-06-15 This book explores how British filmmakers of the 2000s engaged with the themes of love sex and desire in a wide variety of movies It ranges from powerful contemporary dramas such as *Kidulthood* *Closer* and *Disobedience* to the lighter mood of the *Bridget Jones* series It also analyses how the lives loves and traumas of historical figures such as Oscar Wilde Sylvia Plath and Iris Murdoch were dramatised on film The book will appeal to literature enthusiasts film students and readers interested in exploring how we may currently live out our hopes fears and dreams in relation to sexual matters and affairs of the heart *Desire and Consent in Representations of Adolescent Sexuality with Adults* Maureen Turim, Diane Waldman, 2023-10-02 This book presents an innovative comparative view of how the issue of adolescent sexuality and consent is differently treated in various media Analyzing teenage sexual encounters with adults across a variety of media including films television novels and podcasts the volume takes a positive stance on the expression of teenage sexuality while remaining sensitive to the power of adults to abuse and manipulate The anthology treats these representations as negotiations between conflicting forces desire sexual self knowledge unequal power and the law the latter both actual legal statutes and internalized law in the philosophical and psychoanalytic sense Questions of unequal power inherent in such relations are theorized The authors examine variations of this configuration of sexual relations between teenagers and adults from different perspectives to consider how various forms of expression rework it formally These essays are attuned to both nuances of presentation and contexts of reception and they consider how aesthetics play a role Contributing to the general debate about the ways that societies construct and regulate adolescent sexuality this book will be of great interest to scholars and students of media studies cultural studies film studies television studies sociology and gender studies Politics, Desire, and the Hollywood Novel Chip Rhodes, 2008-09 The story of what happens when a serious writer goes to Hollywood has become a cliché the writer is paid well but underappreciated treated like a factory worker and forced to write bad formulaic movies Most fail become cynical drink to excess and at some point write a bitter novel that attacks the film industry in the name of high art Like many too familiar stories this one neither holds up to the facts nor helps us understand Hollywood novels Instead Chip Rhodes argues these novels tell us a great deal about the ways that Hollywood has shaped both the American political landscape and American definitions of romance and desire Rhodes considers how novels about the film industry changed between the studio era of the 1930s and 1940s and the era of deregulated film making that has existed since the 1960s He asserts that Americans are now driven by cultural rather than class differences and that our mainstream notion of love has gone from repressed desire to abnormal desire to finally strictly business *Politics, Desire, and the Hollywood Novel* pays close attention to six authors Nathanael West Raymond Chandler Budd Schulberg Joan Didion Bruce Wagner and Elmore Leonard who have toiled in the film industry and written to tell about it More specifically Rhodes considers both screenplays and novels with an eye toward the different formulations of sexuality art and ultimately

political action that exist in these two kinds of storytelling

Obscure Objects of Desire Johanna Malt, 2004 Publisher description

Love's trilogy [in verse]. Thomas Sinclair, 1876

The Modern Androgyne Imagination Lisa Rado, 2000 In the late nineteenth century as changing cultural representations of gender roles and categories made differences between men and women increasingly difficult to define theorists such as Havelock Ellis Richard von Krafft Ebing and Sigmund Freud began to postulate a third androgynous sex For many modern artists this challenge to familiar hierarchies of gender represented a crisis in artistic authority Faced with the failure of the romantic muse and other two sex tropes for the imagination James Joyce H D William Faulkner Virginia Woolf and other modernist writers of both sexes became attracted to a culturally specific notion of an androgynous imagination In The Modern Androgyne Imagination Lisa Rado explores the dynamic process through which these writers filled the imaginative space left by the departed muse For Joyce the androgynous imagination meant experimenting with the idea of a new womanly man H D personified her overmind as the androgynous Ray Bart Faulkner supplanted the muse with the hermaphrodite And Woolf became a kind of psychic transsexual Although they selected these particular tropes for different reasons literary men and women shared the desire to embody perceived strengths of both sexes and to transcend sexual and artistic limitation altogether However courting this androgynous imagination was a risky act It often evoked the dynamics even the specific vocabulary of the sublime which Rado characterizes as a perilous confrontation with and attempted identification between self and the transcendent other that powerful androgynous creative mind through which they hoped to generate authority and find inspiration This empowerment toward which Joyce H D Faulkner and Woolf gesture in texts such as *Ulysses* *HERmione* *The Sound and the Fury* and *Orlando* is rarely achieved Joyce and Faulkner were unable to silence their fears of feminization and the female body while H D and Woolf remained troubled by the threat of ego incorporation and self erasure that the androgynous model of the imagination portends Still their pursuit of new imaginative

tropes yields important insights into the work of these writers and of literary modernism
