The Americans McDougal-Littell Publishing Staff, 2002-03-04 **World History: Connections to Today** Elisabeth Gaynor Ellis, Pearson/Prentice Hall, 2003-12 *Call to Freedom* Holt Rinehart & Winston, Holt, Rinehart and Winston Staff, 2002-02 *The Bomb and America's Missile Age* Christopher Gainor, 2018-10-15 How nuclear weapons helped drive the United States into the missile age The intercontinental ballistic missile ICBM designed to quickly deliver thermonuclear weapons to distant targets was the central weapons system of the Cold War ICBMs also carried the first astronauts and cosmonauts into orbit More than a generation later we are still living with the political technological and scientific effects of the space race while nuclear armed ICBMs remain on alert and in the headlines around the world In *The Bomb and America's Missile Age* Christopher Gainor explores the US Air Force's USAF decision in March 1954 to build the Atlas America's first ICBM Beginning with the story of the guided missiles that were created before and during World War II Gainor describes how the early Soviet and American rocket programs evolved over the course of the following decade He argues that the USAF was wrongly criticized for unduly delaying the start of its ICBM program endangering national security and causing America embarrassment when a Soviet ICBM successfully put Sputnik into orbit ahead of any American satellite Shedding fresh light on the roots of America's space program and the development of US strategic forces *The Bomb and America's Missile Age* uses evidence uncovered in the past few decades to set the creation of the Atlas ICBM in its true context not only in the America of the postwar years but also in comparison with the real story of the Soviet missiles that propelled the space race and the Cold War Aimed at readers interested in the history of the Cold War and of space exploration the book makes a major contribution to the history of rocket development and the nuclear age **Mining in Latin America** Kalowatie Deonandan, Michael L. Dougherty, 2016-07-15 The last two decades have witnessed a dramatic expansion and intensification of mineral resource exploitation and development across the global south especially in Latin America This shift has brought mining more visibly into global public debates and spurred a great deal of controversy and conflict This volume assembles new scholarship that provides critical perspectives on these issues The book marshals original empirical work from leading social scientists in a variety of disciplines to address a range of questions about the practices of mining companies on the ground the impacts of mining on host communities and the responses to mining from communities civil society and states The book further explores the global and international causes consequences and innovations of this new era of mining activity in Latin America Key issues include the role of Canadian mining companies and their investment in the region and to a lesser extent the role of Chinese mining capital Several chapters take a regional perspective while others are based on empirical data from specific countries including Bolivia Brazil El Salvador Guatemala and Peru **World History: Connections to Today** Prentice Hall (School Division), Prentice Hall Dictionary Editors, 2001-06 To purchase or download a workbook click on the Purchase or Download button to the left To purchase a workbook enter the desired quantity and click Add to Cart To

Feminism for the Americas Katherine M. Marino, 2019-02-05 This book chronicles the dawn of the global movement for women s rights in the first decades of the twentieth century The founding mothers of this movement were not based primarily in the United States however or in Europe Instead Katherine M Marino introduces readers to a cast of remarkable Latin American and Caribbean women whose deep friendships and intense rivalries forged global feminism out of an era of imperialism racism and fascism Six dynamic activists form the heart of this story from Brazil Bertha Lutz from Cuba Ofelia Domínguez Navarro from Uruguay Paulina Luisi from Panama Clara González from Chile Marta Vergara and from the United States Doris Stevens This Pan American network drove a transnational movement that advocated women s suffrage equal pay for equal work maternity rights and broader self determination Their painstaking efforts led to the enshrinement of women s rights in the United Nations Charter and the development of a framework for international human rights But their work also revealed deep divides with Latin American activists overcoming U S presumptions to feminist superiority As Marino shows these early fractures continue to influence divisions among today s activists along class racial and national lines Marino s multinational and multilingual research yields a new narrative for the creation of global feminism The leading women introduced here were forerunners in understanding the power relations at the heart of international affairs Their drive to enshrine fundamental rights for women children and all people of the world stands as a testament to what can be accomplished when global thinking meets local action

The Power of Ideology Alex Roberto Hybel, 2013-05-13 Since the Roman Empire leaders have used ideology to organize the masses and instill amongst them a common consciousness and equally to conquer assimilate or repel alternative ideologies Ideology has been used to help create safeguard expand or tear down political communities states empires and regional or world systems This book explores the multiple effects that competing ideologies have had on the world system for the past 1 700 years the author examines the nature and content of Christianity Islam Confucianism Protestantism secularism balance of power doctrine nationalism imperialism anti imperialist nationalism liberalism communism fascism Nazism ethno nationalism and transnational radical Islamism alongside the effects their originators sought to craft and the consequences they generated

This book argues that for centuries world actors have aspired to propagate through the world arena a structure of meaning that reflected their own system of beliefs values and ideas this would effectively promote and protect their material interests and believing their system to be superior to all others they felt morally obliged to spread it Radical transnational Islamism Hybel argues is driven by the same set of goals This book will be of interest to students and scholars of international politics international relations theory history and political philosophy
