**Instructions:** Read the following passage about the concept of the protestant reformation in world history. Then answer the questions on the information.

### The Protestant Reformation: A Spark That Ignited Europe

The Protestant Reformation, a religious and political upheaval that swept across Europe in the 16th century, shattered the previously unified Christian landscape. It challenged the authority of the Catholic Church and paved the way for the birth of Protestantism, a diverse group of Christian denominations united in their dissent from established Catholic doctrine.

The seeds of discontent with the Catholic Church had been sown long before the Reformation. Corruption within the clergy, the sale of indulgences (pardons for sins), and a widening disconnect between the Church and the everyday lives of many Europeans fueled calls for reform. Additionally, the rise of Humanism, emphasizing reason and individual interpretation of texts, provided fertile ground for questioning traditional religious authority.

The year 1517 is often considered the starting point of the Reformation. German monk Martin Luther ignited a firestorm by posting his Ninety-Five Theses on the door of the Castle Church in Wittenberg. These theses challenged the Church's claim to forgive sins through indulgences and emphasized the importance of faith and scripture over Church pronouncements. Luther's ideas resonated with many across Europe who yearned for a more personal relationship with God.
