

Unit 9: Human Regulation and Reproduction

Homeostasis:

Homeostasis is a fundamental biological concept that refers to the body's ability to keep its internal environment stable and balanced in the face of external changes. It involves keeping within restricted limits numerous physiological variables including as temperature, blood pressure, pH, and the concentration of vital substances such as glucose and oxygen. Homeostasis is essential for the efficient functioning of living beings for a variety of reasons.

Reprogenetics Lori P. Knowles, Gregory E. Kaebnick, 2007-05-15 From the cloning of Dolly the sheep a decade ago to more recent advances in embryonic stem cell research new genetic technologies have often spurred polemical ill informed debates Perhaps nowhere is this more evident than in the field of reproductive genetics where difficult bioethical issues are distilled into sound bites and far fetched claims for easy public consumption The underlying complexities of reprogenetic research and practice are often drowned out by the noise In this thoughtful and informed collection Lori P Knowles and Gregory E Kaebnick bring together bioethicists from the United States Canada and the United Kingdom to examine the ethical and policy quandaries created by new genetic technologies Featuring an overview of the field s history including lessons to be learned from eugenics comparisons of international and domestic governmental regulations and discussions of how the market and public opinion affect research this book considers both the risks and the benefits of combining genetic and reproductive technologies Concluding with a cautionary call for increased regulation Reprogenetics introduces fact history and reason into a public discussion of complex and vexing issues **NEET Exam: Biology Mastering Concepts**

2050 José Luis Valverde,2007 This monograph brings together a number of important papers dealing with the medical societal and demographic ramifications of fertility and is a very valuable contribution to the European debate on fertility The very low fertility levels in several EU Member States are a matter of public concern An increase in fertility will not by itself stop demographic ageing but can contribute to decelerating current demographic trends It is therefore essential to understand better the reasons behind Europe s low fertility rates The difficulty of reconciling private life with a professional career far too often compel women to postpone having a family or to have fewer children than they would desire It follows that more and more couples reach an age where fertility problems become prevalent Involuntary infertility is a serious medical condition with strong negative consequences on the wellbeing of the couples concerned and has a negative impact on demographic trends

Legal and Ethical Issues in Human Reproduction Bonnie Steinbock,2002 This collection of essays by thirteen leading international scholars in bioethics law philosophy and public health addresses many of the most difficult and intriguing issues surrounding today s advances in reproductive medicine **New Technologies and EU Law** Marise Cremona,2017-06-23 What is the nature of the relationship between the fields of new technology and EU law What challenges do new technologies pose for the internal market and the fundamental principles of the EU The first part of the collection explores the EU s approach to the regulation of scientific and technological risk and the link between the regulation of technology and the internal market In detail the chapters analyse the interaction between EU law bioethics and

medical and health technologies The second part of the collection enhances on this and the chapters scrutinize specific policy areas in order to explain the alternate ways in which EU policy and technology cooperate *Reproduction Reborn* Diana Bowman, Karinne Ludlow, Walter G. Johnson, 2023 A cutting edge analysis of the global issues surrounding modern reproductive technologies Advances in assisted reproductive technologies have sparked global policy debates since the birth of the first so called test tube baby in 1978 Today mitochondrial replacement therapies represent the most recent advancement in assisted reproductive technologies allowing some women with mitochondrial diseases to birth babies without those diseases In the past decade mitochondrial replacement therapies have captured public sentiment reigniting debates around social views of reproductive rights and the appropriate legal and political response *Reproduction Reborn* guides readers through the history and science of mitochondrial replacement therapies and the various attempts to control them Leading experts from medicine genetics ethics law and policy explore the influence of public debate on the evolving shape of these technologies and their subsequent regulation They highlight case studies from both developed and developing countries across the globe including recent legislation in Australia and China They further identify the ethical legal and societal norms that need to be addressed by policymakers and communities as more and more people seek to gain access to these treatments Given the importance of reproduction in family life and cultural identity clinicians and policymakers must understand how regulatory regimes around mitochondrial replacement therapies have evolved to illuminate the processes and challenges of governing reproduction in a fast moving world Informative and global in scope *Reproduction Reborn* explores how advancements in assisted reproductive technologies challenge core values surrounding the rights and responsibilities of modern day family units *Law, Policy and Reproductive Autonomy* Erin Nelson, 2013-07-04 Reproductive choices are at once the most private and intimate decisions we make in our lives and undeniably also among the most public Reproductive decision making takes place in a web of overlapping concerns political and ideological socio economic health and health care all of which engage the public and involve strongly held opinions and attitudes about appropriate conduct on the part of individuals and the state *Law Policy and Reproductive Autonomy* examines the idea of reproductive autonomy noting that in attempting to look closely at the contours of the concept we begin to see some uncertainty about its meaning and legal implications about how to understand reproductive autonomy and how to value it Both mainstream and feminist literature about autonomy contribute valuable insights into the meaning and implications of reproductive autonomy The developing feminist literature on relational autonomy provides a useful starting point for a contextualised conception of reproductive autonomy that creates the opportunity for meaningful exercise of reproductive choice With a contextualised approach to reproductive autonomy as a backdrop the book traces aspects of the regulation of reproduction in Canadian English US and Australian law and policy arguing that not all reproductive decisions necessarily demand the same level of deference in law and policy and making recommendations for reform **MEDICAL AND HEALTH SCIENCES - Volume**

This handbook offers a collection of scholarly essays that analyze questions of reproductive justice throughout its cultural representation in global literature and film. It offers analysis of specific texts carefully situated in their evolving historical, economic and cultural contexts. Reproductive justice is taken beyond the American setting in which the theory and movement began; chapters apply concepts to international realities and literatures from different countries and cultures by covering diverse genres of cultural production including film, television, YouTube documentaries, drama, short story, novel, memoir and self-help literature. Each chapter analyzes texts from within the framework of reproductive justice in an interdisciplinary way including English, Japanese, Italian, Spanish and German language literature and culture, comparative literature, film, South Asian fiction, Canadian theatre, writing, gender studies, Deaf studies, disability studies, global health and medical humanities and sociology. Academics, graduate students and advanced undergraduate students in Literature, Gender, Sexuality and Women's Studies, Cultural Studies, Motherhood Studies, Comparative Literature, History, Sociology, the Medical Humanities, Reproductive Justice and Human Rights are the main audience of the volume. *Relationship of Exposure to Toxic Chemicals and Reproductive Impairment* United States.
