

Before you begin

Thank you for purchasing the Bose® Wave® radio.

Customer support is provided by Bose Corporation. Being able to identify its products correctly promotes proper handling, which can extend "lifetime" of the Bose® product.

Using this technology, it takes virtually anything away from a small loudspeaker to the outside or over a wide range of loud speakers. Therefore it is the only thing necessary to get away from a radio, making the listening more for pleasure than being there with the radio.

Features

The Wave radio has features:

- Integrated system design for superior quality without component adjustments
- A high-performance stereo tuner — offers up to 5 AM and 5 FM stereo presets
- Two independent dials, with battery backup power for remember settings
- A credit card size remote control with recording time provided
- Input for an additional sound source, such as a CD or tape player

Please use the steps to follow this owner's guide carefully. It helps you set up the receiver and radio and enjoy all of its features and high-fidelity sound.

Unpacking the radio

Unpacking the radio

Check the inside of your radio. There is packing material for protection from use. The correct packing material should be used to protect your Wave® radio. If you need the correct packing material, do not place it in the Wave® radio. Customer Service should be able to provide you with the correct packing material.

Check to see your Wave radio contains the parts described in Figure 1.

- Note:** Check the serial number on the bottom of your radio. Write it on your record card and in the label attached to Figure 1.

Figure 1

Wave radio and parts
(Serial number)

Selecting a location for your radio

Please read these guidelines to select a location for your radio.

- Place the radio on a table or other flat surface.
- Do not use the radio in a damp location. It is important to prevent moisture from getting into the unit.
- Do not place it on a metal surface or table that causes interference with AM reception.
- Since all electronic equipment generates some heat, do not place it on a heat sensitive surface.
- If you use the radio with your television or VCR, do not place it directly in front of the television. It may interfere with the picture quality.
- A wooden surface may help if a radio is recommended for best stereo performance.
- You get the maximum sound from your radio if you are able to place the radio across the room from where you will be listening.

Please adjust the location to get the sound you prefer.
