From Bauhaus To Our House Tom Wolfe:

From Bauhaus to Our House Tom Wolfe, Heberto Padilla, 1981 The strange saga of American architecture in the 20th century makes for both comedy and intellectual excitement as Wolfe debunks the Euro gods of modern and postmodern architecture and their American counterparts

From Bauhaus to Our House Tom Wolfe, 2025-02-04 Wolfe takes European architects and Bauhaus art school founder Walter Gropius to task for their glass and steel box buildings which have influenced American cities

New York Magazine, 1981-11-02 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea

The Postmodernist Turn J. David Hoeveler, 2004 During the 1970s the United States became the world's preeminent postindustrial society The new conditions changed the way Americans lived and worked and even their perceptions of reality Americans struggled to find their place in a world where symbol became more important than fact appearance more important than reality where image supplanted essence In this reassessment of a little studied decade J David Hoeveler Jr finds that the sense of detachment and dislocation that characterizes the postindustrial society serves as a paradigm for American thought and culture in the 1970s The book examines major developments in literary theory philosophy architecture and painting as expressions of a 1970s consciousness Hoeveler also explores the rival political readings of these subjects and considers the postmodernist phenomenon as it became an ideological battleground in the decade Clear and engaging the work will be of great interest to historians theorists and everyone who wants to further explore the 1970s

[The Theory of Architecture](#) Paul-Alan Johnson, 1994-04-18 The Theory of Architecture Concepts Themes Practices Paul Alan Johnson Although it has long been thought that theory directs architectural practice no one has explained precisely how the connection between theory and practice is supposed to work This guide asserts that architectural theory does not direct practice but is itself a form of reflective practice Paul Alan Johnson cuts through the jargon and mystery of architectural theory to clarify how it relates to actual applications in the field He also reveals the connections between new and old ideas to enhance the reader's powers of critical evaluation Nearly 100 major concepts themes and practices of architecture as well as the rhetoric of architects and designers are presented in an easily accessible format Throughout Johnson attempts to reduce each architectural notion into its essential concept By doing so he makes theory accessible for everyday professional discussion Topics are arranged under ten headings identification definition power attitudes ethics order authority governance relationship and expression Areas covered under these headings include Utopic thought in theories of architecture Advocacy and citizen participation in architecture The basis of architectural quality and excellence The roles of the architect as artist poet scientist and technologist Ethical obligations of
