Understanding and Evaluating Research Sue L. T. McGregor, 2017-10-25 Understanding and Evaluating Research A Critical Guide shows students how to be critical consumers of research and to appreciate the power of methodology as it shapes the research question the use of theory in the study the methods used and how the outcomes are reported The book starts with what it means to be a critical and uncritical reader of research followed by a detailed chapter on methodology and

then proceeds to a discussion of each component of a research article as it is informed by the methodology The book encourages readers to select an article from their discipline learning along the way how to assess each component of the article and come to a judgment of its rigor or quality as a scholarly report Reading and Writing for Civic Literacy Donald Lazere, 2017-07-05 Lazere's book is heaven sent and will provide a crucial link in the chain of understanding how conflicts are structured and most importantly how they can be rationally addressed a healthy antidote to the scepticism that has become so pervasive in academic life Alan Hausman Hunter College This innovative book addresses the need for college students to develop critical reading writing and thinking skills for self defence in the contentious arena of American civic rhetoric In a groundbreaking reconception of composition theory it presents a comprehensive critical perspective on American public discourse and practical methods for its analysis Exercises following the text sections and readings help students understand the ideological positions and rhetorical patterns that underlie opposing viewpoints in current controversies such as the growing inequality of wealth in America and its impact on the finances of college students as expressed in paired sets of readings from the political left and right Widely debated issues of whether objectivity is possible and whether there is a liberal or conservative bias in news and entertainment media as well as in education itself are foregrounded as topics for rhetorical analysis *Writing and Power* Candace Mitchell, 2015-12-03 This book offers a much needed alternative to the more traditional texts used to teach writing instruction Grounded in history the book clarifies changing theoretical and practical approaches to teaching writing critically assessing each approach in relation to the social and political movements of the day both within and beyond the university The author takes us inside the real world of writing instruction not only from the viewpoint of instructor but as seen through the eyes of students struggling to make sense of the expectations of writing class Mitchell emphasizes that writing entails far more than putting words to paper and delves into contextually variable culturally defined expectations that include multiple linguistic forms both oral and written highlighting the complexity of writing's while engaging the reader in lively academic debates about language and society
