Hunter College Graduate Handbook:

The Rowman & Littlefield Handbook on Workplace Diversity and Stratification Tsedale M. Melaku, Angie Beeman, Christoph Winkler, 2023-11-01 Organizations and institutions use diversity and inclusion mantras to signal opportunity and access for all. However, the real world results are often underwhelming and people are demanding that organizations recognize the value that diversity brings to a workplace and be held accountable to the diversity and inclusion mission statements on their websites. *The Rowman Littlefield Handbook on Workplace Diversity and Stratification* provides a comprehensive yet concise overview of important issues, themes, and research regarding workplace diversity and stratification. The book analyzes present day and future implications of diversity in the workplace and offers concrete ways of developing policies and practices that will make diversity an intrinsic part of any organizational culture. Taking an interdisciplinary approach, the book covers topics including racism, sexism, socio-economic status, LGBTQ workers, education, intersectionality, neurodiversity, religion, and allyship. Practical, contemporary, and relevant, this is an excellent resource for anyone interested in understanding what workplace diversity and stratification mean for everyday people, institutions, and society as a whole.

This text provides the tools students need to fully engage with their research and is an essential reference aid for use alongside professional literature for selecting a problem for social work study with consideration of context and ethics, identifying a design type, developing or selecting an instrument, developing a sampling strategy, collecting and analyzing data, and organizing, writing, disseminating, and utilizing results in a politically sensitive way. *The Social Work Student's Research Handbook* is an invaluable resource for undergraduate and graduate social work students as well as practitioners new to the field as they apply what they've learned in research courses toward consuming research effectively, implementing original research projects, and ultimately toward becoming an evidence-based practitioner.
