Azibuye emasisweni Zethu Cakata ,Nompumelelo Z. Radebe,Mogobe B. Ramose ,2023-06-28 African knowledge is yet to fully contribute to spaces of learning because of the disciplinary boundaries founded on Western separatist logic From an African epistemology knowledge is interconnected because of the cosmological understanding that the universe is one entity Bringing African knowledge into the academy requires a concerted effort to bring it of its own accord There have been commendable efforts by scholars in South Africa to bring African knowledge to higher education in ways that do not alter or re shape this knowledge to suit the dominant Euro American script This book aims to showcase such efforts This book makes interconnections of themes across disciplines The content produced in this book will ensure that literature will anchor the noble efforts to build African universities that deliberately centre African ways of knowing This book will be among the few publications that focus on Africanisation and decolonisation of knowledges as praxis We anticipate that this book will be recommended in various disciplines of social sciences in South African universities *Nutrition Abstracts and Reviews* ,2006 Higher Education in South Africa Eli Bitzer,2009-10-01 Higher Education in South Africa should be of considerable interest to higher education researchers outside of South Africa as well as within for the general and comparative assessments it makes The South African higher education researchers included within its covers have clearly engaged with research and writing from many parts of the world which they have then applied to make sense of their own condition Malcolm Tight Lancaster University UK **In Pursuit of Epistemic Healing in South African Universities** Wanelisa Xaba,2025-09-30 This book demonstrates the epistemic challenges in the South African education system and asks readers to think critically about the university s role in a decolonial future Wanelisa Xaba reveals how Western colonial educational models severed indigenous ways of knowing and learning across the Global South and settler colonial contexts Presenting narratives capturing ongoing histories of violence this book shows how Black South African students navigate intersecting identities of race class gender and spirituality within university settings It shows how racial discrimination from fellow students academics and staff coupled with discriminatory language policies financial exclusion and violent colonial curricula affects Black students wellbeing on university campuses Xaba argues that these intersecting colonial violences mirror spiritual violence hinder their holistic citizenship in South African universities and result in psycho spiritual disease By centring Black students voices this book provides crucial insights for educators policymakers activists healers and institutions committed to creating affirming academic spaces and epistemic healing It is an insightful read for scholars researching decoloniality in higher education as well as students of feminist studies decolonial theory educational justice and critical university studies *Lifestyle and Epidemiology* Kotsedi Daniel Monyeki,Han C.G. Kemper,2021-10-06 *Lifestyle and Epidemiology* The Double Burden of Poverty and Cardiovascular Diseases in African Populations examines the profile of non communicable diseases NCDs in the rural South African population The burden of diseases in South Africa is characterized

by a combination of poverty related diseases with emerging NCDs associated with urbanization industrialization and a Westernised lifestyle Chapters in this book examine the effects of poverty COVID 19 and other social factors on the prevalence of cardiovascular disease reproductive health and diabetes in rural South Africa *Green Marketing in Emerging Markets* Chipso Mukonza, Robert E. Hinson, Ogechi Adeola, Isaiah Adisa, Emmanuel Mogaji, Ayça Can Kirgiz, 2021-08-17 Green marketing has risen in prominence over recent years as corporations face calls to lower their carbon footprint engage in socially responsible practices and promote sustainable ways of conducting business In emerging economies social economic and environmental problems resulting from rapid industrialisation requires urgent attention Promoting environmentally responsible practices through green marketing has been identified as a key solution This book provides theoretical and practical insights into how businesses in emerging economies can integrate green objectives into their marketing activities to achieve sustainable outcomes and attain green focused goals It discusses green marketing from strategic and operational perspectives which considers target consumers products processes promotion and sustainability of resources and presents the institutional logic of embedding greenness across organisational marketing activities Issues concomitant to green marketing such as consumer buying behaviour of green products green integrated marketing communication green product management green initiatives in logistics social responsibility greenwashing and the need for transparency and green marketing orientations and firm performance are covered in the book Ultimately this collection contributes to and extends theoretical conversations on green marketing while also providing actionable recommendations for organisations and the larger society in emerging economies Chipso Mukonza is a Lecturer at the Tshwane University of Technology in Polokwane South Africa Ogechi Adeola is an Associate Professor of Marketing at the Lagos Business School Pan Atlantic University Nigeria Isaiah Adisa is a management researcher and consultant based in Nigeria Robert E Hinson is a Professor and Head of the Department of Marketing and Entrepreneurship at the University of Ghana Business School Emmanuel Mogaji is a Senior Lecturer in Advertising and Marketing Communications at the University of Greenwich United Kingdom **Promoting Qualitative Research Methods for Critical Reflection and Change** Wang, Viktor, 2021-04-16 The philosophical foundation of emancipatory knowledge lies in critical theory In this paradigm instrumental and communicative knowledge are not rejected but are limited If we do not question current scientific and social theories and accepted truths we may never realize how we are constrained by their inevitable distortions and errors Without the possibility of critical questioning of ourselves and our beliefs such constraining knowledge can be accepted by entire cultures The research paradigm that is relevant for constructing this kind of knowledge is the critical paradigm Data are always qualitative and have specific methods of research Quantitative research unquestionably has a place and is fundamental to scientific advances but qualitative research delves into what it is to be human Through qualitative research we gain insight into communicative knowledge its rich nature and the mechanisms by which communicative knowledge is formed and

interpreted Qualitative research enables the necessary exploration and critical analysis of social systems and uncovers and facilitates critical reflections on the inevitable assumptions which shape social behavior and interaction thereby stimulating and empowering change Promoting Qualitative Research Methods for Critical Reflection and Change provides readers with a comprehensive array of qualitative research methods which can be implemented in a variety of contexts for a variety of purposes The chapters explore the impact uses and methodologies for qualitative research across various fields of research This book is ideal for practitioners researchers academicians and students interested in the use of qualitative research methods **South Africa Yearbook ,2006 Indigenous Language for Development Communication in the Global**

Consortium of College and University Media Centers and R.R. Bowker Consortium of College and University Media Centers,1990 **Sustainable Education and Development—Clean Energy** Clinton Aigbavboa,Wellington Thwala,Joseph N. Mojekwu,Lawrence Atepor,Emmanuel Adinyira,Gabriel Nani,Emmanuel Bamfo-Agyei,2025-02-07 This book is Volume 1 of the proceedings of 2023 Sustainable Education and Development Research Conference This volume concentrates on papers in the area of clean energy Despite considerable progress more than 700 million people worldwide still lack access to electricity and around 2 4 billion people continue to use harmful and polluting fuels for cooking While efforts have been made to promote renewable energy and energy efficiency they have not been fast enough to achieve Sustainable Development Goal 7 Adding to the challenge the ongoing war in Ukraine has contributed to rising global energy prices and heightened energy insecurity in Europe In response to the energy crisis some European countries are planning to accelerate the transition to renewables and increase investments in clean energy and energy efficiency However others are considering a resurgence of coal which poses a risk to the overall green transition Between 2010 and 2020 the percentage of the global population with access to electricity increased from 83% to 91% with 1 3 billion people gaining access Nevertheless this leaves approximately 733 million people still without electricity and most of them reside in sub Saharan Africa Achieving universal access by 2030 the annual growth rate in access needs to accelerate from 0 5 percentage points to 0 9 percentage points necessitating significant efforts in low income fragile and conflict affected countries In 2020 69% of the global population had access to clean cooking fuels and technologies While more than half of those without access to clean cooking fuels live in Asia the 20 countries with the lowest percentage of people having access to clean cooking were predominantly least developed countries

in Africa The share of renewable sources in total final energy consumption reached 17.7% globally in 2019 just slightly higher than the figure for 2015 The electricity sector leads in the adoption of renewables accounting for 26.2% of total final energy consumption in 2019 while the heat and transport sectors have made limited progress Global primary energy intensity defined as global total energy supply per unit of GDP improved from 5.6 megajoules per dollar 2017 purchasing power parity in 2010 to 4.7 megajoules in 2019 However the rate of improvement 1.6% per year on average since 2015 falls short of the 3.2% annual rate needed to reach Sustainable Development Goal 7.3 International financial flows to support clean and renewable energy in developing countries reached 10.9 billion in 2019 a 23.6% decrease from 2018 This decline occurred even before the onset of the COVID-19 pandemic Over a longer five year moving average average annual commitments decreased for the first time since 2008 from 17.5 billion in 2014 to 16.6 billion in 2015-19 Although developing countries achieved a record of 245.7 watts per capita in installed renewable energy generating capacity in 2020 small island developing States least developed countries and landlocked developing countries have lagged behind It would take least developed countries and landlocked developing countries nearly 40 years and small island developing States almost 15 years to reach the same level of progress as the average developing country in 2020 The 2023 SEDRC conference titled Sustainable Development and Education aims to redefine the understanding of research in the continent's development and the role of researchers The conference focusses on applied research discussions and its dissemination Researchers from research institutions academicians postgraduate students politicians and industry representatives will be the primary audience for the conference proceedings

Handbook of Land and Water Grabs in Africa John Anthony Allan, Wageningen University, Aalto University, Kings College London, 2012-09-10 According to estimates by the International Land Coalition based at the International Fund for Agricultural Development IFAD 57 million hectares of land have been leased to foreign investors since 2007 Current research

has focused on human rights issues related to inward investment in land but has been ignorant of water resource issues and the challenges of managing scarce water This handbook will be the first to address inward investment in land and its impact on water resources in Africa The geographical scope of this book will be the African continent where land has attracted the attention of risk taking investors because much land is under utilised marginalized land with associated water resources and rapidly growing domestic food markets The successful implementation of investment strategies in African agriculture could determine the future of more than one billion people An important factor to note is that Sub Saharan Africa will of all the continents be hit hardest by climate change population growth and food insecurity Sensible investment in agriculture is therefore needed however at what costs and at whose expense The book will also address the livelihoods theme and provide a holistic analysis of land and water grabbing in Sub Saharan Africa Four other themes will addressed politics economics environment and the history of land investments in Sub Saharan Africa The editors have involved a highly diverse group of around 25 expert researchers who will review the pro and anti investment arguments geopolitics the role of capitalist investors the environmental contexts and the political implications of and reasons for leasing millions of hectares in Sub Saharan Africa To date there has been no attempt to review land investments through a suite of different lenses thus this handbook will differ significantly from existing research and publication The editors are Tony Allan Professor Emeritus Department of Geography School of Oriental and African Studies and King s College London Jeroen Warner Assistant Professor Disaster Studies University of Wageningen Suvi Sojamo PhD Researcher Water and Development Research Group Aalto University and Martin Keulertz PhD Researcher Department of Geography London Water Group King s College London

The New Black Middle Class in South Africa Roger Southall,2016 Provides the most comprehensive account since the early 1960s of South Africa s black middle class 2016 CHOICE Outstanding Academic Title The rise of the black middle class is one of the most visible aspects of post apartheid society in South Africa Yet while it has been a major actor in the country s democratic reshaping analysis of its role has been all but lacking Rather the image presented by the media has been of black diamonds consumers of the products of advanced industrial economies and of corrupt tenderpreneurs who use their political connections to obtain contracts This book seeks to complicate that picture with a much needed analysis that

recounts its historical development in colonial society prior to 1994 before examining the size shape and structure of the new black middle class in contemporary South Africa and its relation to its counterparts in the Global South Roger Southall is Professor Emeritus in Sociology University of the Witwatersrand Southern Africa South Africa Namibia Botswana Lesotho Zimbabwe and Swaziland Jacana **The National Agricultural Directory 2011** ,2010
