

Les erreurs de traduction dans la confection des dictionnaires bilingues : le cas des patronymes issus du groupe Bantu B40

Université Omar Bongo
Gabon

Résumé : L'élaboration des dictionnaires bilingues est une activité très complexe qui met en exergue trois domaines de compétence : lexicographique, terminologique et traductologique. Cette catégorie de dictionnaire impose la maîtrise de la langue générale et plus encore. Une connaissance approfondie des termes – patronymes - relève du domaine de la terminologie, véritable lien entre la lexicographie et la traduction. Une analyse uniquement lexicographique peut occasionner des erreurs de traduction dans la confection de cet outil. Voilà pourquoi une synergie entre ces trois niveaux de compétence reste un préalable. La traduction est donc une nécessité à l'élaboration du dictionnaire bilingue.

Abstract : The development of dictionaries bilingual is a very complex activity that highlights three areas of expertise : lexicographical, terminological and translational. This category of dictionary requires command of the general language and more. An Indepth knowledge of the terms (surnames) is in the field of terminology, a real link between lexicography and translation. A lexicographic only analysis can cause translation errors in the construction of this tool. This is why synergy between these three levels of competence remains a prerequisite. Translation is therefore a necessity for the development of the bilingual dictionary.

La diversité typologique des dictionnaires ouvre un grand *corridor* à l'hybridation dans leur confection (Ella 2011, 116). Ceci favorise, sans doute, le travail du lexicographe dans la mesure

La Traduction dans les dictionnaires bilingues, **Dictionnaires**, *Dictionnaires bilingues et interculturalité*
Anne-Marie Loffler-Laurian, Anne-Marie Laurian, 2004 A partir d'une réflexion sur les contenus utiles ou essentiels des dictionnaires bilingues ce volume propose dix études contrastives portant sur le français l'anglais l'espagnol le suédois le turc et le japonais Ces articles traitent de langage quotidien littéraire ou technique Ils montrent pourquoi l'utilisateur de dictionnaire bilingue ne peut qu'être insatisfait malgré toute la richesse que certains offrent tant en équivalents qu'en exemples d'emplois Que manque-t-il donc aux dictionnaires bilingues Essentiellement la part culturelle sans laquelle il n'y a pas de compréhension ni d'expression possible Les dictionnaires bilingues sont des lieux privilégiés d'interculturalité Leur développement et leur exploitation constituent des facteurs essentiels d'une construction collective ouverte sur un avenir multilingue **Traduire l'intertextualité**, 2006 Etudes qui abordent les difficultés de traduction que génère un texte littéraire traduire quand celui-ci reprend un extrait de texte une citation etc d'un autre auteur **La traduction raisonnée, 3e édition** Jean Delisle, Marco A. Fiola, 2013-12-04 Ce manuel dont la visée est essentiellement pratique propose une méthode d'initiation à la traduction professionnelle par opposition aux exercices de traduction axés sur l'acquisition d'une langue étrangère Il répond aux exigences particulières de formation des futurs traducteurs de métier et s'adresse tout particulièrement mais non exclusivement aux étudiants des programmes universitaires de traduction Son domaine est celui des textes pragmatiques généraux formulés selon les normes de la langue ciblée et en vue d'un apprentissage dans le sens anglais français Le manuel renferme 9 objectifs généraux d'apprentissage 75 objectifs spécifiques 85 textes à traduire 253 exercices d'application un glossaire de 275 notions une bibliographie de 410 titres et des milliers d'exemples de traduction Publié en français

Terminologie de la Traduction Jean Delisle, Hannelore Lee-Jahnke, Monique C. Cormier, 1999-07-15 This terminology collection presents approximately 200 concepts that can be considered the basic vocabulary for the practical teaching of translation Four languages are included French English Spanish and German Nearly twenty translation teachers and terminologists from universities in eight countries Canada France Germany Spain Switzerland United Kingdom United States and Venezuela defined the concepts and presented them in pedagogical form with notes and examples The terms describe specific language acts the cognitive aspects involved in the translation process the procedures involved in transfer from one language to another and the results of these operations All of the terms in each section of the book are cross referenced A dozen tables help the reader understand the relationships between the concepts and a bibliography completes each section This vocabulary is designed to be a useful tool and contribution to the general quality of translator training **La traduction raisonnée** Jean Delisle, Alain René, 2003 Ce manuel destiné aux futurs traducteurs de métier leur propose une méthode de traduction raisonnée basée sur des textes non littéraires en vue d'un apprentissage dans le sens anglais français Les thèmes traités dans l'ouvrage s'articulent autour de huit chapitres : management documentation de base et outils du traducteur

Legal Translation and the Dictionary Marta Chromá,2013-10-10 This study concentrates on three major issues creating a basis for the making of the Czech English Law Dictionary with Explanations namely language including terminology in both the Czech and Anglo American systems of law the process of legal translation and the lexicographic method of producing a bilingual law dictionary Terminology has been considered the most significant feature of language for legal purposes It encompasses a wide range of special purpose vocabulary and higher syntactic units including legal jargon Conceptual analysis is to be pursued whenever an identical term in the target language does not exist or its full equivalent is in doubt Legal translation should be based primarily on comparative legal linguistic and genre analysis in order to make the transfer of legal information as precise accurate and comprehensible as possible The primary objective of legal translation is for the target recipient to be provided as explicit extensive and precise legal information in the target language as is contained in the source text complemented by the translator with facts rendering the original information fully comprehensible in the different legal environment and culture A dictionary which will help its users to produce legal texts in the target language should be founded upon a profound comparative legal and linguistic analysis that will a determine equivalents at the levels of vocabulary syntax and genre b select the appropriate lexicographic material to be included in the dictionary and c create entries in a user friendly manner

Pedagogical Specialised Lexicography Pedro Antonio Fuertes Olivera,Ascensión Arribas-Baño,2008 This stimulating new book which combines dictionary research and linguistic knowledge analyses the representation of meaning in business dictionaries from a pedagogical perspective By examining in detail the macrostructure mediostructure access structure and microstructure of eight business dictionaries this book presents interesting findings on how the dictionaries studied represent the noun term and on how they cope with the principles of new lexicography that aims at solving the needs of a specific type of user with specific types of problems related to a specific type of user situation This exhaustive study which makes simultaneous contributions to the theory of terminology lexicography and LSP teaching defends a methodological confluence between LSP lexicography and terminology and proposes some guiding principles towards the construction of pedagogically oriented specialised dictionaries that must target students enrolled in LSP courses Business English Business Spanish Business Translation etc
