U.S. National Security and Military/commercial Concerns with the People's Republic of China United States. Congress. House. Select Committee on U.S. National Security and Military/Commercial Concerns with the People's Republic of China, 1999 May 25 1999 declassified in part pursuant to House Resolution 5 as amended 106th Congress 1st session Added title page

China's Space Program - From Conception to Manned Spaceflight Brian Harvey, 2004-07-15 This book is designed for publication straight after the launch of China's first manned spacecraft The precursor mission Shenzhou flew unmanned in November 1999 in line with the predictions of The Chinese Space Programme From Conception to Future Capabilities 1998 the first edition of this retitled book China's Space Program From Conception to Manned Spaceflight builds on the 1998 title to take account of the first manned flight in October 2003 It also brings the reader up to date with other developments in the Chinese space programme over from 1998 to the manned flight and looks forward to China's future plans and ambitions

The Militarization and Weaponization of Space Matthew Mowthorpe, 2004-01-01 The militarization of space began as a rivalry between the United States and the Soviet Union and grew to enormous proportions during the height of the Cold War Satellite reconnaissance navigation and weapons guidance and electronic intelligence comprise only a few of the efforts taken to militarize and dominate space Today as the prominence of information technology computing and telecommunications advances so does the concept of space as a battlefield In The Militarization and Weaponization of Space Matthew Mowthorpe diligently analyzes the military space policies of the United States the Soviet Union Russia and the People's Republic of China from the Cold War period to the present day Mowthorpe focuses on the development of the ballistic missile defense and other anti-satellite systems and aptly assesses to what degree space will become armed This work cogently addresses an issue of increasing urgency to scholars of international politics

Space Politics and Policy E. Sadeh, 2006-04-11 Space Politics and Policy An Evolutionary Perspective provides a comprehensive survey of Space Policy This book is organized around two themes Space Policy is evolutionary in that it has responded to dramatic political events such as the launching of Sputnik and the Cold War and has undergone dynamic and evolutionary policy changes over the course of the space age Space Policy is an integral part of and interacts with public policy processes in the United States and abroad The book analyzes Space Policy at several levels including historical context political actors and institutions political processes and policy outcomes It examines the symbiotic relationships between policy technology and science provides a review and synthesis of the existing body of knowledge in Space Policy and identifies Space Policy trends and developments from the beginnings of the space age through the current era of the twenty-first century

On the Edge of Earth Steven Lambakis, 2014-04-23 Interesting and provocative Recommended for anyone interested in space policy and national security affairs Choice The United States has long exploited Earth's orbits to enhance security generate wealth and solidify its position as a world leader America's ambivalence toward military activities in space however has the potential to undermine

our future security Some perceive space as a place to defend and fight for America's vital interests Others whose voices are frequently dominant and manifested in public rhetoric funded defense programs international diplomacy and treaty commitments look upon space as a preserve not to be despoiled by earthly strife After forty years of discussion the debate over America's role in space rages on In light of the steady increase in international satellite activity for commercial and military purposes America's vacillation on this issue could begin to pose a real threat to our national security Steven Lambakis argues that this policy dysfunction will eventually manifest itself in diminished international political leverage the forfeiture of technological advances and the squandering of valuable financial resources Lambakis reviews key political military and business developments in space over the past four decades Emphasizing that we should not take our unobstructed and unlimited access to space for granted he identifies potential space threats and policy flaws and proposes steps to meet national security demands for the twenty first century Provides a wealth of details on a wide range of factors that contribute to space power Air Space Power Journal Will trigger public debate generate controversy and add creatively to the policy debate John D Stempel author of Common Sense and Foreign Policy
