transformed law's engagement with NRCSA survivors and understandings of justice itself. However, despite this undeniable progress, the book identifies ways in which the legal responses developed in each country fail to deliver accountability and recognition to NRCSA survivors and argues that such failures betray the law's inherent ambivalence to delivering justice for these survivors. Creating new insights into legal responses to this complex contemporary legal, social, and political problem, this book will be of great interest to academic lawyers, political scientists, and historians, as well as those working on related topics in criminology, sociology, social policy, cultural studies, and gender studies. **London Boroughs at 50** Tony

Travers, 2015-11-24 It is the year 1965 Mary Quant introduces the miniskirt to society in her shop in Chelsea, the Dalek style Post Office Tower is opened, and the Beatles play their last ever live UK tour date. Most importantly, on 1 April, a new system of city government is introduced and London's thirty-two boroughs are born, revolutionising the capital into the place we know today. New names had to be chosen, councillors elected, and policies formed. These boroughs and the Greater London Council between them took control of housing, roads, planning, schools, and social services. Half a century on, and though the GLC was abolished in 1986, the boroughs live on, now working alongside a new metropolitan government headed by mayors Ken Livingstone and, since 2008, Boris Johnson. In *London's Boroughs at 50*, Tony Travers examines the governing system that developed alongside the growing metropolis and, by identifying the unique path each has taken over the years, tells the fascinating story of how our remarkably diverse boroughs have not only survived but actively shaped both the city and the lives of its inhabitants in their impressive fifty-year history. *Working with Children and Young People* Lindsay

O'Dell, Stephen Leverett, 2018-06-26 Traditional ways of working with children and young people are giving way to new practices. Where practice solutions previously tended to be imposed on children and young people, professionals are now looking to engage them as vital partners in actively negotiated and co-constructed models of working. Combining social, ecological, and social constructionist perspectives drawn from a range of academic and practice disciplines, *Working with Children and Young People* explores and interrogates how ideas about childhood, policy, and professional discourses change over time and in turn affect the issues faced by young people and their families. In particular, this important text develops a critical and reflective approach to knowledge and practice explored vividly across a wide range of practice settings. Presents a new vision where the focus is centrally on the child or young person and where dominant ideas are challenged. Explores how key concerns such as professional power and children's rights embed themselves in working relationships. *Working with Children and Young People* provides an innovative critical framework for all students on vocational and professional courses involving work with children and young people. It also offers illuminating reading for practitioners working with the 0-18 age group, whether in the statutory, voluntary, or private sectors. *Social Work Law, Ethics & Social Policy* Muna

Sabbagh, Gillian Korgaonkar, 2021-12-15 Are you a social work student looking to understand how the law, ethics, and social policy interrelate in practice? Then look no further. Whether you are a student or Newly Qualified Social Worker working with

children and families or adults at risk of harm this practical guide will equip you with the knowledge and skills you need to fulfil your professional responsibilities and practice with confidence This book covers all the areas of law you need to know social work with children and families vulnerable adults and social issues such as welfare and homelessness Each section concludes with a discussion of how social policy and ethics relate to each area of social work law This gives real world context to what you have learnt alongside thought boxes exercises and case studies in each chapter to further encourage reflection and put theory into practice
