session 2006 07 *Law And Regulation Of Common Carriers In The Communications Industry* Daniel L Brenner,2018-03-14

This revised casebook plus commentary offers a basic introduction to the traditional regulation of telephone companies as well as the new lines of businesses they have entered Drawing on historical and contemporary court decisions as well as on FCC and legislative materials Brenner documents and evaluates the past twenty years of regulation of the telecommunications industry In particular he traces the major regulatory changes from the time of AT T s single firm dominance to the increasingly competitive marketplace of today The law and literature necessary to understand the development and trends in telecommunications are voluminous and up until now have been difficult to locate in one place This book presents the critical concepts and shifts in communications policy coherently and concisely In this revised and expanded edition Brenner provides excerpts and comments upon the key decisions in the field ordering them in a readily accessible manner He assumes no specialized background in technology law or economics Brenner provides an ideal introduction to this increasingly important field for professionals as well as for scholars and students interested in communications and communications policy Departmental annual report 2010-11 Great Britain: Parliament: House of Commons: Foreign Affairs Committee,2012-04-13 Despite the impressive performance of the Foreign and Commonwealth Office in representing the UK s interests across the globe with what is in Governmental terms a particularly small budget the Foreign Affairs Committee believes that the FCO is under funded This situation has been exacerbated by the Spending Review 2010 and the lack of detail provided by the FCO and the BBC World Service as to exactly how the spending reductions target will be met is disappointing There are concerns about the steps taken by the FCO to adjust to its reduced budget reductions in the deployment of UK based staff overseas and the optimistic planned programme of property sales will have a detrimental impact on the ability of the UK to protect its interests overseas The establishment of the European External Action Service EEAS will place a further strain on the FCO s resources The Committee welcomes the appointment of Lord Williams of Baglan to the post of International Trustee with responsibility for the BBC World Service but reiterates its belief that a formal concordat governing the World Service s budget and output should be drawn up setting out the World Service s independence from budgetary pressures elsewhere in the BBC The budget cuts faced by the British Council will lead to the Council becoming a substantially different organisation by the end of the Spending Review period The greater emphasis that the British Council will place on commercial activity risks a diminution of the UK s influence and soft power
