HWM, 2005-03 Singapore's leading tech magazine gives its readers the power to decide with its informative articles and in depth reviews, Kingdom of Nokia Carl-Gustav Lindén, 2021-04-29 Kingdom of Nokia tells a fascinating story of corporatism in Finland How did the mobile phone giant Nokia make the Finnish elite willing to serve the interests of the company Nokia became a global player in mobile communications in the 1990s and helped establish Anglo Saxon capitalism in Finland Through its success and strong lobbying the company managed to capture the attention of Finnish politicians civil servants and journalists nationwide With concrete detailed examples Kingdom of Nokia illustrates how Nokia organised lavishing trips to journalists and paid direct campaign funding to politicians to establish its role at the core of Finnish decision making As a result the company influenced important political decisions such as joining the European Union and adopting the euro and further Nokia even drafted its own law to serve its special interests All this in a country considered one of the least corrupt in the world

The Globalization Myth Shannon K. O'Neil, 2022-10-18 A case for why regionalization not globalization has been the biggest economic trend of the past forty years The conventional wisdom about globalization is wrong Over the past forty years as companies money ideas and people went abroad more often than not they looked regional rather than globally O Neil details this transformation and the rise of three major regional hubs in Asia Europe and North America Current technological demographic and geopolitical trends look only to deepen these regional ties O Neil argues that this has urgent implications for the United States Regionalization has enhanced economic competitiveness and prosperity in Europe and Asia It could do the same for the United States if only it would embrace its neighbors

The Hitchhiker's Guide to Going Mobile Arthur Goldstuck, 2006 The Hitchhiker's Guide to Going Wireless quickly established itself as the essential guide to mobile technology in South Africa Going Mobile starts where Wireless left off and shows how the vision for the future is becoming a reality today Wireless talked about the future high speed wireless technology called WiMax and already WiMax services are being offered commercially The future is rushing up on us so fast that the time for a new edition of the Hitchhiker's Guide is now As in Wireless we ask the critical questions What does it all mean Where is it all going How do ordinary people tap into this communication revolution Here is a guide that once again catches the wave of interest and activity that taps into the buzz and also sets the mobile agenda for ordinary people and businesses throughout South Africa

Opening Government John Wanna, Sam Vincent, 2018-04-23

Transparency and citizen engagement remain essential to good government and sound public policy Indeed they may well be the key to restoring trust in government itself currently at an all time low in Australia It is ironic then that this has occurred at a time when the technological potential for information dissemination and interaction has never been greater Opening Government Transparency and Engagement in the Information Age explores new horizons and scenarios for better governance in the context of the new information age focusing on the potentials and pitfalls for governments and governance more broadly operating in the new information rich environment Its contributors a range of international and Australian governance academics and practitioners ask what are the challenges to our governing traditions and practices in the new information age and where can better outcomes be expected using future technologies They explore the fundamental ambiguities extant in opening up government with governments intending to become far more transparent in providing information and in information sharing but also more motivated to engage with other data sources data systems and social technologies
