Herbert West is a genius and he's secretly working on a life restoring formula. It's his dream to restore life to the dead but this means years of research and a desperate need for fresh corpses. Bodies are missing from Arkham cemetery. The crazed animal-like cannibal in Arkham Asylum knows his name. West swears he knows nothing about the missing child. Yet West does need fresh bodies for his reanimation experiments. We are delighted to publish this classic book as part of our extensive Classic Library collection. The second chapter, 'The demon of the plague', was originally published in a journal of the time as a short story, *autoconclusivo*, but was later followed by other chapters which explain that each is an individual story about the adventures of the protagonist. The story recounts the results of the research of Dr Herbert West over death and resuscitation of bodies from his student days in the fictional Miskatonic University until shortly after the First World War.

*Herbert West* Howard Phillips Lovecraft, 2020-11-10 The first horrible incident of our acquaintance was the greatest shock I ever experienced and it is only with reluctance that I repeat it. As I have said, it happened when we were in the medical school where West had already made himself notorious through his wild theories on the nature of death and the possibility of overcoming it artificially. His views, which were widely ridiculed by the faculty and by his fellow students, hinged on the essentially mechanistic nature of life and concerned means for operating the organic machinery of mankind by calculated chemical action after the failure of natural processes. In his experiments with various animating solutions, he had killed and treated immense numbers of rabbits, guinea pigs, cats, dogs, and monkeys till he had become the prime nuisance of the college. Several times he had actually obtained signs of life in animals supposedly dead; in many cases violent signs, but he soon saw that the perfection of his process, if indeed possible, would necessarily involve a lifetime of research. It likewise became clear that since the same solution never worked alike on different organic species, he would require human subjects for further and more specialised progress. **Herbert West Reanimator Annotated** Howard Phillips Lovecraft, 2020-09-23

**Herbert West** H. P. Lovecraft,2016-01-02 Of Herbert West who was my friend in college and in after life I can speak only with extreme terror This terror is not due altogether to the sinister manner of his recent disappearance but was engendered by the whole nature of his life work and first gained its acute form more than seventeen years ago when we were in the third year of our course at the Miskatonic University Medical School in Arkham While he was with me the wonder and diabolism of his experiments fascinated me utterly and I was his closest companion Now that he is gone and the spell is broken the actual fear is greater Memories and possibilities are ever more hideous than realities
