Douglas B. Reeves,2009-04-14 Guiding schools through significant change is one of the toughest challenges educational
leaders face but learning from the examples of those who have succeeded can make it less daunting In *Leading Change in
Your School* distinguished author and researcher Douglas B Reeves offers lessons learned through his work with educators in
thousands of schools around the world and presents real life examples of leaders who have met the challenge of change head
on with impressive results for their schools and districts Readers will also find practical resources for engaging their
colleagues in change initiatives Expanding on a number of his columns in the journal *Educational Leadership* Reeves offers
insights and recommendations in four areas Creating conditions for change including assessments to determine personal and
organizational readiness for change Planning change including cautionary notes about strategic planning Implementing
change including the importance of moving from rhetoric to day to day reality and Sustaining change including the need to
reorient priorities and values so that individual convenience gives way to a shared sense of the greater good The change
leaders both teachers and administrators whose stories Reeves tells come from varied districts but they share a passion for
creating schools that work for all students They are Reeves says people like you sharing similar challenges but perhaps with
different results *Most Likely to Succeed* Tony Wagner,Ted Dintersmith,2015-08-18 An urgent call for the radical re
imagining of American education so that we better equip students for the realities of the twenty first century *The
Pedagogy of Standardized Testing* Arlo Kempf,2016-04-29 Based on a large scale international study of teachers in Los
Angeles Chicago Ontario and New York this book illustrates the ways increased use of high stakes standardized testing is
fundamentally changing education in the US and Canada with a negative overall impact on the way teachers teach and
students learn Standardized testing makes understanding students strengths and weaknesses more difficult and class time
spent on testing consumes scarce time and attention needed to support the success of all students further disadvantaging
ELLs students with exceptionalities low income and racially minoritized students *Introduction to Teaching* Gene E.
Hall,Linda F. Quinn,Donna M. Gollnick,2018-11-29 An ideal introductory text for aspiring teachers *Introduction to Teaching
Making a Difference in Student Learning* is grounded in the realities and complexities found in today s schools Acclaimed
authors Gene E Hall Linda F Quinn and Donna M Gollnick thoroughly prepare readers to make a difference as teachers
presenting firsthand stories and evidence based practices while offering a student centered approach to learning The authors
focus on how to address one of the biggest challenges facing many of today s schools ensuring that all students are learning
and help teachers prioritize student learning as their primary focus From true to life challenges that future teachers will face

such as high stakes testing reduced funding low retention and Common Core State Standards to the inspiration and joy they will experience throughout their teaching careers the Third Edition paints an importantly authentic picture of the real life of a teacher

Assessing Academic Literacy in a Multilingual Society Albert Weideman, John Read, Theo du Plessis, 2020-11-02 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience

Executive Function and Education Mariëtte Huizinga, Dieter Baeyens, Jacob A. Burack, 2018-09-21 Executive function is an umbrella term for various cognitive processes that are central to goal directed behavior thoughts and emotions These processes are especially important in novel or demanding situations which require a rapid and flexible adjustment of behavior to the changing demands of the environment The development of executive function relies on the maturation of associated brain regions as well as on stimulation in the child's social contexts especially the home and school Over the past decade the term executive function has become a buzzword in the field of education as both researchers and educators underscore the importance of skills like goal setting planning and organizing in academic success Accordingly in initiating this Research Topic and eBook our goal was to provide a forum for state of the art theoretical and empirical work on this that both facilitates communication among researchers from diverse fields and provides a theoretically sound source of information for educators The contributors to this volume who hail from several different countries in Europe and North America have certainly accomplished this goal in their nuanced and cutting edge depictions of the complex links among various executive function components and educational success
