

POSITIONING THE SPEAKERS

Refer to the following speaker positioning diagram. All 5 satellites should be approximately the same distance from your listening position.

- Place center speaker either directly above or below your TV screen.
- Place front left and right speakers to the left and right of TV at approximately the same height as the center speaker.
- Place rear left and right speakers either in line with, or behind your listening position, at ear level, or slightly above, when seated.
- Place subwoofer on the floor in front of the room, either next to TV or in the corner, facing your listening position.

DVD PLAYBACK

- Turn on your TV. If necessary press the Source or Video button on your TV's front panel or TV remote control to select the external source connected to your TV's Video In jack. (If necessary refer to your TV's instruction manual.)
- Press the **STANDBY** button on the AV101 remote control to turn the system 'On'. If necessary press the **DVD** button on the front panel or the **FUNCTION** button on the AV101 remote control repeatedly to select the DVD function. The AV101 front panel display will show "DVD", and the DVD logo screen should appear on your TV.
- Press the **OPEN/CLOSE** button on the remote control or front panel to open the Disc Tray.
Note: Remote must be pointed at the front of the player to operate properly.
- Insert DVD movie disc in tray with printed side facing up. Press **OPEN/CLOSE** button to close the disc tray. Player will read the disc and display shows **LOADING**. On some discs playback will start automatically. On other discs the DVD Menu Screen will appear. Press **PLAY** button to begin playback, or use the Cursor buttons (**◀** / **▶** / **▲** / **▼**) and then the **ENTER** button to select other playback options from the DVD menu.
