ID Validation Systems

FARGO Card Printers are built tough for high-speed, high-quality applications. These printers produce full-color and monochrome cards and deliver solid performance card after card. For reliable, proven technology, FARGO Card Printers are the choice of systems integrators worldwide. All Fargo Professional Series printers are available with built-in Magnetic Stripe Encoders and Smart Card Encoding stations.

DTC400

The DTC400 Card Printer/Encoder is the first desktop card personalization printer providing field upgrades to dual-sided printing and commonly used encoders. The DTC400 produces full-color cards utilizing Fargo's direct-to-card (DTC™) dye-sublimation and resin thermal transfer technology.

HDP600 CR 100

Now you can eliminate the expense and hassle of pre-printing ID badges with color-coded borders and other security features. The HDP600 CR100 prints sharp, colorful photos and graphics over-the-edge of standard CR-100 cards. It uses Fargo's patented High Definition Printing™ (HDP®) technology to print on the underside of a film that adheres to the card. By sandwiching the image between card and film, your oversized ID badges become more durable and tamper-evident. If someone tries to alter a badge by peeling apart its layers, the printed image is destroyed.

CardJet 410

The FARGO CardJet 410 is the world's first ink jet card printer / encoder. Featuring FARGO's exclusive CardJet Printing Technology, the newest of the Professional line prints on plastic ink jet card stock via a highly specialized inkjet technology. Great for use in personalized, on demand printing applications for ID badges, card keys, customer loyalty cards, education and membership applications.

C30

The Persona C30's easy-loading, all-in-one ribbon cartridge saves time and eliminates the mess and expense of torn, wasted ribbons. Simply open the front panel, slide in the ribbon cartridge, close the panel, and you're done. There's nothing to feed, nothing to fumble with, nothing to tear. And since the card cleaning roller is integrated into the ribbon cartridge, you automatically change the cleaning roller every time you change the ribbon.

FARGO®

DTC550

The Fargo DTC550 Direct-to-Card Printer/Encoder supports secure ID card issuance at multiple locations throughout the enterprise. With an Ethernet port and internal print server, your IT staff can install a DTC550 anywhere on a LAN. The optional Print Security software gives your security team tight control over ID card printer access and use.

HDP600

The HDP600 produces vibrant, full-color, dual-sided cards utilizing Fargo's High Definition Printing™ (HDP®) technology. Unlike traditional direct-to-card printing, this revolutionary process prints images onto special HDP Film which is then fused to the surface of a card through heat and pressure. It consistently delivers exceptional print quality, high card durability and over-the-edge printing, encoding and laminating of technology-rich contact and contactless smart cards, Weigand cards, proximity cards and optical memory cards. The HDP600 is the printer/encoder of choice for government, corporate and other high-security card applications.

CardJet C7

The Persona CardJet C7 brings the simplicity and affordability of ink jet printing to the world of personalized plastic cards. Featuring FARGO's exclusive CardJet Printing Technology, the newest of the Persona line prints on plastic ink jet card stock via a highly specialized inkjet technology. Just drop in the pre-loaded card stock carrier, snap in the ink cartridge and print away!
