Geography Ptrial 2014 Memo:

The Geography of Injustice Barak Kushner, 2024-03-15 In *The Geography of Injustice* Barak Kushner argues that the war crimes tribunals in East Asia formed and cemented national divides that persist into the present day In 1946 the Allies convened the Tokyo Trial to prosecute Japanese wartime atrocities and Japan's empire At its conclusion one of the judges voiced dissent claiming that the justice found at Tokyo was only the sham employment of a legal process for the satisfaction of a thirst for revenge War crimes tribunals Kushner shows allow for the history of the defeated to be heard In contemporary East Asia a fierce battle between memory and history has consolidated political camps across this debate The Tokyo Trial courtroom as well as the thousands of other war crimes tribunals opened in about fifty venues across Asia were legal stages where prosecution and defense curated facts and evidence to craft their story about World War Two These narratives and counter narratives form the basis of postwar memory concerning Japan's imperial aims across the region The archival record and the interpretation of court testimony together shape a competing set of histories for public consumption *The Geography of Injustice* offers compelling evidence that despite the passage of seven decades since the end of the war East Asia is more divided than united by history

Borderless Worlds for Whom? Anssi Paasi, Eeva-Kaisa Prokkola, Jarkko Saarinen, Kaj Zimmerbauer, 2018-10-25 The optimism heralded by the end of the Cold War and the idea of an emerging borderless world was soon shadowed by conflicts wars terrorism and new border walls Migrants asylum seekers and refugees have simultaneously become key political figures Border and mobility studies are now two sides of the same coin The chapters of this volume reflect the changing relations between borders bordering practices and mobilities They provide both theoretical insights and contextual knowledge on how borders bordering practices and ethical issues come together in mobilities The chapters scrutinize how bounded territorial and open networked relational spaces manifest in various contexts The first section *Borders in a borderless world* raises theoretical questions The second *Politics of inclusion and exclusion* looks at bordering practices in the context of migration The third section *Contested mobilities and encounters* focuses on tourism which has been an accepted form of mobility but which has recently become an object of critique because of overtourism Section four *Borders security politics* examines bordering practices and security in the EU and beyond highlighting how the migration border politics nexus has become a national and supra national political challenge The chapters of this interdisciplinary volume contribute both conceptually and empirically to understanding contemporary bordering practices and mobilities It is essential reading for geographers political scientists sociologists and international relations scholars interested in the contemporary meanings of borders and mobilities

Terrorism on Trial Nicole Nguyen, 2023-09-26 A landmark sociological examination of terrorism prosecution in United States courts Rather than functioning as a final arbiter of justice U S domestic courts are increasingly seen as counterterrorism tools that can incapacitate terrorists maintain national security operations domestically and produce certain narratives of conflict *Terrorism on Trial* examines the

contemporary role that these courts play in the global war on terror and their use as a weapon of war hunting criminalizing and punishing entire communities in the name of national security Nicole Nguyen advocates for a rethinking of popular understandings of political violence and its root causes encouraging readers to consider anti imperial abolitionist alternatives to the criminalization prosecution and incarceration of individuals marked as real or perceived terrorists She exposes how dominant academic discourses geographical imaginations and social processes have shaped terrorism prosecutions as well as how our fundamental misunderstanding of terrorism has led to punitive responses that do little to address the true sources of violence such as military interventions colonial occupations and tyrannical regimes Nguyen also explores how these criminal proceedings bear on the lives of defendants and families seeking to understand how legal processes unevenly criminalize and disempower communities of color A retheorization of terrorism as political violence Terrorism on Trial invites readers to carefully consider the role of power and politics in the making of armed resistance addressing the root causes of political violence with a goal of building toward a less violent and more liberatory world **The Report: Oman 2014** Oxford

Business Group,2014-01-15 The sultanate s economy continues to enjoy the benefits of petroleum wealth which has provided budget surpluses in most years and served as a backbone for growth However planning is well under way for an era in which oil will not be the main economic driver with the twin goals of diversification and creating an increased number of private sector jobs at the top of the government s current agenda Indeed in recent years the non OPEC oil exporter s economy has been undergoing a steady transformation reorienting from oil toward a more diverse set of service and industry based economic activities So far progress has been promising In 2011 oil and gas accounted for 38.8% of GDP With the continuation of higher than expected energy prices in 2012 the government has increased economic investments accordingly These investments which include infrastructure social programmes and small business development are aimed toward better preparing the country for its post fossil fuel future **Researching People and the Sea** Madeleine Gustavsson,Carole S.

The Politics of the Trail Oded Löwenheim, 2014-05-14 Each day as Oded Löwenheim commutes by mountain bike along dirt trails and wadis in the hills of Jerusalem to Hebrew University he feels a strong emotional connection to his surroundings But for him this connection also generates paradoxically feelings and emotions of confusion and estrangement In The Politics of the Trail Löwenheim confronts this tension by focusing on his encounters with three places along the trail the separation fence between Israel and the Palestinians the ruins of the Palestinian village Qalunya demolished in 1948 and the trail connecting the largest 9 11 memorial site outside of the U S with a top secret nuclear proof bunker for the Israeli cabinet He shares the stories of the people he meets along the way and considers how his own subjectivity is shaped by the landscape and culture of conflict Moreover he deconstructs challenges and resists the concepts and institutions that constitute such a culture and invites conversation about the idea of conflict as a culture
