Breton,2025-04-24 A critical deep drive into conceptions of power and society in Terry Pratchett's Discworld novels this book brings together experts in fantasy literature political sciences economics philosophy history and journalism to consider the intricate social tapestry of one of the most intricate worlds in modern fantasy Surveying the Discworld's institutionalised power structures from government and police to civil services banks and societies it explores ideas such as language translation humour crowds community justice and coercion in the series major works Featuring analyses of novels such as Men at Arms Equal Rites Carpe Jugulum Guards Guards Jingo Night Watch Wyrdsisters Witches Abroad and many more this collection illuminates how Pratchett juxtaposed his narratives with contemporary reflections on social constructs Broken down into parts looking at social power dynamics building and destroying worlds and the power of language the book offers a much needed corrective to the dearth of scholarship on one of fantasy literature's worldbuilding titans **Discworld and**

the Disciplines Anne Hiebert Alton,William C. Spruiell,Donald E. Palumbo,2014-04-22 This collection of new essays applies a wide range of critical frameworks to the analysis of prolific fantasy author Terry Pratchett's Discworld books Essays focus on topics such as Pratchett's treatment of noise and silence and their political implications art as an anodyne for racial conflict humor and cognitive debugging visual semiotics linguistic stylistics and readers perspectives of word choice and Derrida and the monstrous Regiment of Women The volume also includes an annotated bibliography of critical sources The essays provide fresh perspectives on Pratchett's work which has stealthily redefined both fantasy and humor for modern audiences **That's The Way It Crumbles** Matthew Engel,2017-06-08 Are we tired of hearing that fall is a season sick of

being offered fries and told about the latest movie Yeah Have we noticed the sly interpolation of Americanisms into our everyday speech You betcha And are we outraged Hell yes But do we do anything Too much hassle Until now In That's The Way It Crumbles Matthew Engel presents a call to arms against the linguistic impoverishment that happens when one language dominates another With dismay and wry amusement he traces the American invasion of our language from the early days of the New World via the influence of Edison the dance hall and the talkies right up to the Apple and Microsoft dominated present day and explores the fate of other languages trying to fend off linguistic takeover bids It is not the Americans fault more the result of their talent for innovation and our own indifference He explains how America's cultural supremacy affects British gestures celebrations and way of life and how every paragraph and conversation includes words the British no longer even think of as Americanisms Part battle cry part love song part elegy this book celebrates the strange the banal the precious and the endangered parts of our uncommon common language **Subcreation: Fictional-World**

Construction from J.R.R. Tolkien to Terry Pratchett and Tad Williams Stefanie Schult,2017-01-26 The doctoral thesis argues that the term Subcreation with its revised and broadened definition in part differing from J R R Tolkien's original term

sub creation may be used for the discussion of the making of fictional worlds in literary discourse The successful conception of a fictional world depends on the reader s willing suspension of disbelief This depends both on the author and his skilled composition of the world and all its aspects as well as on the reader s acceptance of this invented fictional world The author needs to create a narrative with an inner consistency which is crucial to achieving the effect of the reader s immersion in the fictional world The fundamental aspects that an author needs to realize to achieve successful Subcreation have been structured into and analysed in four categories Language and Linguistic Variation Physiopoeia Anthropoeia and Mythopoeia Furthermore this thesis shows that as contemporary examples of fantastic literature both Tad Williams s and Terry Pratchett s fictional worlds are successfully created through the realization of these aspects of Subcreation Apart from commenting on the success of the subcreative process this thesis also remarks upon the cultural influences both authors include in their writings While both may be considered Anglophone in a general categorization Pratchett s Discworld retains a feeling of Britishness that is not to be found in Williams s Otherland The thesis proposes several approaches to Subcreation that may be studied subsequently So for example it may be possible to determine the success of an author s Subcreation by collecting empirical data Apart from literary works this field of studies may also include other media

The World of Poo Terry Pratchett, 2012-06-07 Bestselling fedora sporting multi award winning Knight of the Realm creator of worlds and one of the most popular British authors on the planet Terry Pratchett is not so much a writer as a one man publishing phenomenon who has single handedly re shaped the world of fantasy fiction satirised everything from religion to Hollywood been adapted for stage and screen and proven beyond all doubt that a wizard s staff does indeed have a knob on the end SFX s Outstanding Contribution Award From Snuff Vimes prompt arrival got a nod of approval from Sybil who gingerly handed him a new book to read to Young Sam Vimes looked at the cover The title was The World of Poo When his wife was out of eyeshot he carefully leafed through it Well okay you had to accept that the world had moved on and these days fairy stories were probably not going to be about twinkly little things with wings As he turned page after page it dawned on him that whoever had written this book they certainly knew what would make kids like Young Sam laugh until they were nearly sick The bit about sailing down the river almost made him smile But interspersed with the scatology was actually quite interesting stuff about septic tanks and dunnakin divers and gongfermors and how dog muck helped make the very best leather and other things that you never thought you would need to know but once heard somehow lodged in your mind
