Florida Class A Air Conditioning Contractor is a contractor whose services are unlimited in the execution of contracts requiring the experience knowledge and skill to install maintain repair fabricate alter extend or design if not prohibited by law central air conditioning refrigeration heating and ventilating systems including duct work in connection with a complete system if such duct work is performed by the contractor as necessary to complete an air distribution system boiler and unfired pressure vessel systems and all appurtenances apparatus or equipment used in connection therewith and any duct cleaning and equipment sanitizing that requires at least a partial disassembling of the system to install maintain repair fabricate alter extend or design if not prohibited by law piping insulation of pipes vessels and ducts pressure and process piping and pneumatic control piping to replace disconnect or reconnect power wiring on the load side of the dedicated existing electrical disconnect switch to install disconnect and reconnect low voltage heating ventilating and air conditioning control wiring and to install a condensate drain from an air conditioning unit to an existing safe waste or other approved disposal other than a direct connection to a sanitary system The scope of work for such contractor also includes any excavation work incidental thereto but does not include any work such as liquefied petroleum or natural gas fuel lines within buildings except for disconnecting or reconnecting changeouts of liquefied petroleum or natural gas appliances within buildings potable water lines or connections thereto sanitary sewer lines swimming pool piping and filters or electrical power

wiring A Class A air conditioning contractor may test and evaluate central air conditioning refrigeration heating and ventilating systems including duct work however a mandatory licensing requirement is not established for the performance of these specific services

Illustrated Guide to the 1999 National Electrical Code John E. Traister, 1999 This fully illustrated guide offers a quick and easy visual reference for installing electrical systems Whether you re installing a new system or repairing an old one you ll appreciate the simple explanations written by a code expert and the detailed intricately drawn and labeled diagrams A real time saver when it comes to deciphering the current NEC

Contractor's Guide to Quickbooks Pro 2002 Karen Mitchell, Craig Savage, Jim Erwin, 2002 According to a recent national survey more construction contractors use QuickBooks Pro and QuickBooks than all other accounting programs combined And for good reason QuickBooks Pro excels at all the routine paperwork in a construction office writing checks keeping track of your bank balance sending out invoices and statements creating up to the minute profit and loss statements for the month year or by job writing payroll checks paying suppliers and subcontractors tracking job costs comparing estimated and actual costs for each job and much more But there s a lot to learn in QuickBooks Pro And converting to a new accounting system can be a complex and confusing task even if you have a strong background in accounting and plenty of time to install the new system That s why this book was written because most construction pros aren t accounting experts and have more important work to do at the job site
