Bennett,2015-07-31 Kendo is the first in depth historical cultural and political account in English of the Japanese martial art of swordsmanship from its beginnings in military training and arcane medieval schools to its widespread practice as a global sport today Alexander Bennett shows how kendo evolved through a recurring process of inventing tradition which served the changing ideologies and needs of Japanese warriors and governments over the course of history Kendo follows the development of Japanese swordsmanship from the aristocratic aesthetic pretensions of medieval warriors in the Muromachi period to the samurai elitism of the Edo regime and then to the nostalgic patriotism of the Meiji state Kendo was later influenced in the 1930s and 1940s by ultranationalist militarists and ultimately by the postwar government which sought a gentler form of nationalism to rekindle appreciation of traditional culture among Japan s youth and to garner international prestige as an instrument of soft power Today kendo is becoming increasingly popular internationally But even as new organizations and clubs form around the world cultural exclusiveness continues to play a role in kendo s ongoing evolution as the sport remains closely linked to Japan s sense of collective identity [The Vampire Combat Manual](#) Roger Ma,2012-10-02 WHEN DARKNESS FALLS WHEN THE UNDEAD RISE WITH A HUNGER FOR BLOOD WHEN THE HUNT IS ON AND YOU ARE THE PREY WILL YOU BE READY In the inevitable event of a vampire attack the average citizen will be forced to engage in vicious hand to hand combat To avoid serious injury disfigurement or death by exsanguination you need to know the proper combat strategies and techniques to ward off a stronger faster more agile undead opponent looking to drain the life from your body Are you prepared With detailed illustrations and firsthand accounts from vampire combat veterans as well as interviews with actual members of the undead this manual provides you with the information you need to survive with your life and blood supply intact including Debunking myths i e vampire flight animal metamorphosis physical attraction to humans Crafting the most lethal vampire weapons from everyday materials The pros and cons of decapitation Weaponizing Ultraviolet UV light against an undead opponent Using the Domicile Histodiscordant Reaction DHR otherwise known as The Vampire Invitation to your advantage Solo attacks team based combat and much more The Vampire Combat Manual is your indispensable key to survival whether in a one on one battle for blood or a face off against multiple attackers Don t wait until the sun goes down prepare yourself now [Ninja Skills](#) Antony Cummins,2018-03-13 The world s only illustrated guide to the real ninja teachings of historic

Japan with original techniques presented in a highly accessible how to format The shadowy figure of the ninja expert commando secret agent maverick who operates outside social norms continues to exert fascination in the West yet much of what is presented as ninja fact today is distorted or wrong Drawing on the scrolls created by historical Japanese ninjas or shinobi as they were then known this book offers the real ninja teachings in 150 easy to follow illustrated lessons designed to draw contemporary students of ninja straight into the world of these skilled spy commandos The truth about the ninja is so much more complex and intriguing than the Hollywood clichés we know today We may think for example of a ninja as being always garbed in black and fighting with throwing stars but in fact a ninja had clothes in different colours to serve as disguises for different times of day and their arsenal of weaponry could include anything from poison poison gas pepper spray and fire creating tools to swords spears and knives but no throwing stars The 150 lessons in this book cover all the basics of ninja warfare including clever ideas for infiltrating an enemy compound from wearing silent sandals to faking passes and passwords tactics for hiding and retreat in the racoon dog retreat a ninja will crouch low and halt allowing the pursuer to collide with him at speed whereupon the agent kills his enemy and ways of crossing marshes and water for example with special shoes made of boards or using a foldaway floating seat The description is made all the more vivid by step by step photographs of the fighting techniques diagrams outlining military tactics and beautiful samples of Japanese calligraphy
