

June 2012 Question 3

a) Assess the view that the main cause of globalisation is the increased significance of transnational companies (20)

N.B. Candidates may take either perspective as analysis and use the reverse arguments for evaluation i.e. might argue that TNCs are or are not the main cause of globalisation. However, there must be some consideration of TNCs in the answer, otherwise maximum 14/20.

Meaning of globalisation: increased economic interdependence between countries e.g. increased trade as a % of GDP; more FDI; capital market liberalisation. Comment on increased significance of transnational companies as major cause of globalisation e.g. growth of offshoring and outsourcing by multinationals resulting from factors such as:

- Reduction in transport costs
- Reduction in communication costs
- Low labour costs
- Regulations (health & safety and environmental) less stringent than in developed economies
- Capital market liberalisation

Other Factors causing globalisation (These may be regarded as evaluation or further analysis):

- Reduction in trade barriers linked to the work of the WTO; application of law of comparative advantage
- Opening up of economies to world market e.g. China; former Communist countries
- Economic development in LDCs leading to more demand for foreign goods
- Higher real incomes create increased demand for imported goods (depending on value of the marginal propensity to import)
- Increase in the number and size of trading blocs

Other evaluative comments could include:

- Prioritisation of factors
- Critical view of accuracy of measures of trade and world GDP
- Application of concepts such as income elasticity of demand and marginal propensity to import
- Deglobalisation resulting from financial crisis

b) To what extent do the costs of globalisation outweigh the benefits (30)

N.B. Candidates may take either perspective as analysis and use the reverse arguments for evaluation.

Costs of globalisation include:

- Over-dependence on imports or on exports
- Exploitation of labour
- Negative externalities from increased trade e.g. increased air freight causing pollution- climate change
- Increased inequality between developed economies and LEDCs
- TNCs might engage in tax avoidance policies so causing reduction in tax revenues for governments

Secondary History in Action Catherine Priggs, Hugh Richards, David Hibbert, Elizabeth Carr, 2025-06-06 Drawing on over 60 years combined experience of history teaching and history curriculum leadership, Carr, Hibbert, Priggs and Richards explore ways to make history memorable, engage students in historical thinking and secure excellent outcomes for all. Their perspective is grounded in history's disciplinary distinctiveness and a vision for its purpose in students' education. The authors of *Secondary History in Action* articulate practical approaches to history curriculum design, ways to teach disciplinary history in the classroom and methods to assess students' knowledge and understanding. They draw together recent research and established traditions in history teaching discourse in a coherent summary that will be helpful to trainee and beginning teachers, non-specialist teachers of history, subject leaders and senior leaders/line managing history departments.

Debates in Geography Education Mark Jones, David Lambert, 2017-09-07 *Debates in Geography Education* encourages early career teachers, experienced teachers and teacher educators to engage with and reflect on key issues, concepts and debates. It aims to enable readers to reach their own informed judgements with deeper theoretical knowledge and understanding. The second edition is fully updated in light of the latest research, policy and practice in the field as well as key changes to the curriculum and examination specifications. Expert contributors provide a range of perspectives on international, historical and policy contexts in order to deepen our understanding of significant debates in geography education. Key debates include geography's identity as an academic discipline, what constitutes knowledge in geography, places and regional geography, what it means to think geographically, constructing the curriculum, how we link assessment to making progress in geography, the contribution of fieldwork and outdoor experiences, technology and the use of Geographical Information Systems, school geography and employability, understanding the gap between school and university geography, evidence-based practice and research in geography education. The comprehensive, rigorous coverage of these key issues, together with carefully annotated selected further reading, will help support and shape further research and
