Grade 12 Maths Literacy June Exam 2015

Daniel Muijs, David Reynolds

Grade 12 Maths Literacy June Exam 2015:

Assessing Academic Literacy in a Multilingual Society Albert Weideman, John Read, Theo du Plessis, 2020-11-02
South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy. The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages. Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools. The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully. The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience.

Exam Literacy Jake Hunton, 2018-08-13
In Exam Literacy A guide to doing what works and not what doesn't to better prepare students for exams. Jake Hunton focuses on the latest cognitive research into revision techniques and delivers proven strategies which actually work. Foreword by Professor John Dunlosky. Read highlight reread repeat if such a revision cycle sounds all too wearily familiar you and your students need a better route to exam success. And in light of the recent decision to make all subjects at GCSE linear so that students will be tested in one off sittings it will be even more important that students are well equipped to acquire and recall key content ahead of their exams. In this wide ranging guide to effective exam preparation Jake Hunton casts a careful eye over a wide range of research into revision techniques and details the strategies which have been proven to deliver the best results. With plenty of practical suggestions and subject specific examples Exam Literacy provides teachers with user friendly advice on how they can make the content they cover stick and shares up to date evidence based information on The nature of learning and the various types of memory. How to improve students retention of knowledge and recall of content. Why popular revision techniques such as rereading highlighting and summarising may not be as effective as you think. How revision strategies that have been identified as being more effective such as interleaving elaborative interrogation self explanation and retrieval practice can be embedded into day to day teaching. How students can be encouraged to make use of these winning strategies when revising independently.
