Fatherless Daughters Pamela Thomas, 2018-03-27 A moving elegantly written and exhaustively researched account of what it means for a girl to lose a father to death or divorce with advice for fatherless daughters on how to cope People who lose their parents early in life are like fellow war veterans As soon as they discover that they are talking to someone else who has lost a parent they know they are speaking the same language without uttering a word Pamela Thomas gives voice to this unspoken pain in Fatherless Daughters Still haunted by her own father s death when she was ten Thomas decided to explore its effects Though her journey began as a personal one she soon felt the need to hear from other women and ended up interviewing more than one hundred fatherless women They ranged in age from nineteen to ninety four they came from all areas of the country as well as Europe and Asia some had lost their fathers to death others to divorce or abandonment Each account was unique but the impact of a father s loss was profound in every woman s life Thomas begins by defining what it means to be a father in our world She discusses the initial shock of his loss exploring the aspects that color how a young girl experiences it her age at the time of her father s death or abandonment her mother s behavior and attitudes her place in the family vis vis siblings and the influence of a stepfather or father surrogates Thomas shows how a father s early death or abandonment affects a woman s emotional health and self esteem her body image her sexual experiences her marriage her family life and her career Perhaps most important Thomas offers compassionate advice for coming to terms with father loss even late in life from actively mourning to healing to starting fresh

The Supportive State Maxine Eichner, 2010-10-15 Broad agreement exists among politicians and policymakers that the family is a critical institution of American life Yet the role that the state should play with respect to family ties among citizens remains deeply contested This controversy over the state s role undergirds a broad range of public policy debates Does the state have a responsibility to help resolve conflicts between work and family Should same sex marriage be permitted Should parents who receive welfare benefits be required to work Yet while these individual policy issues are endlessly debated the underlying theoretical question of the stance that the state should take with families remains largely unexplored In The

Supportive State Maxine Eichner argues that government must take an active role in supporting families She contends that the respect for human dignity at the root of America s liberal democratic understanding of itself requires that the state not only support individual freedom and equality the goods generally considered as grounds for state action in liberal accounts It must also support families because it is through families that the caretaking and human development needs which must be satisfied in any flourishing society are largely met Families capacity to satisfy these needs she demonstrates is critically affected by the framework of societal institutions in which they function In the supportive state model she develops the state bears the responsibility for structuring societal institutions to support families in performing their caretaking and human development functions Although not all family forms will further the important functions that warrant state support she argues that a broad range will Eichner s vigorous defense of the state s responsibility to enhance families capacity for caretaking and human development stands as a sharp rejoinder to the widespread conservative belief that the state s role in family life must be diminished in order for families to flourish

Technology and Students with Special Educational Needs Adina Shamir,Malka Margalit,2016-04-08
Heterogeneous classes including students with Special Educational Needs SEN are increasingly becoming fixtures of the twenty first century school As a result the question of how to devise more effective innovative and diverse tools has posed a significant challenge for educators and the research community This collection considers how technology may provide SEN children with greater opportunities to acquire academic skills while preparing them for a successful transition to adulthood Computers and other new technologies hold great promise for facilitating the inclusion of SEN individuals into modern society Precisely because they are characterized by multiple representations of knowledge computerized learning environments offer effective support tools for the instruction of SEN students faced with barriers that make learning a more complex process Yet despite the blossoming of this field research on how the use of technology may benefit SEN students is in its early stages The development of the theoretical knowledge and empirical databases necessary to assess the impact of computers on learners characteristics and educators teaching goals lag behind the introduction of the respective technological innovations To meet this challenge this volume presents a review of the latest advances in how new technologies and their software may potentially enhance SEN students performance in school and out This book was originally published as a special issue of the European Journal of Special Needs

Readers' Guide to Periodical Literature ,1917 **Max Baer and Barney Ross** Jeffrey Sussman,2016-11-03 In the 1920s and 30s anti Semitism was rife in the United States and Europe Jews needed symbols of strength and demonstrations of courage against their enemies and

they found both in two champions of boxing Max Baer and Barney Ross Baer was the only Jewish heavyweight champion in the twentieth century while Ross was considered one of the greatest welterweight and lightweight champions of the era Although their careers never crossed paths their boxing triumphs played a common role in lifting the spirits of persecuted Jews In Max Baer and Barney Ross Jewish Heroes of Boxing Jeffrey Sussman chronicles the lives of two men whose successful bouts inside the ring served as inspiration for Jewish fans across the country and around the world Though they came from very different backgrounds Baer grew up on his family's ranch in California while Ross roamed the tough streets of Chicago and was a runner for Al Capone both would bask in the limelight as boxing champions Their stories include legendary encounters with such opponents as Jimmy McLarnin known as the Jew Killer Max Schmeling Hitler's favorite athlete and Primo Carnera a sad giant controlled and mistreated by gangsters While recounting the exploits of these two men the author also paints an evocative picture of boxing and the crucial role it played in an era of anti-Semitism A vivid and engaging look at these two heroes and the difficult era in which they lived Max Baer and Barney Ross will appeal to boxing fans sports historians and anyone interested in Jewish history

assessment and treatment are not up to the task of dealing with today's culturally diverse patients. In an increasingly multicultural society where basic terms such as normality and family can have radically varying definitions it is not unusual for well-meaning clinicians to inadvertently misclassify unfamiliar behaviors or beliefs as abnormal or pathological. Ultimately the solution lies in educational reform. In the meantime a major first step toward ensuring that ethnically different patients receive quality mental health services is the adoption of culturally sensitive assessment and intervention models such as those described in this pathbreaking book. The culmination of its authors' many years of experience in working with culturally diverse patients, this timely guide arms practitioners with an array of innovative yet clinically grounded approaches to psychological assessment, intervention, and training. With the help of numerous case examples drawn from their work with Asian, Caribbean, African American, and Hispanic clients, Drs. Gopaul McNicol and Brice Baker illustrate a four-step approach that entails assessing problems within their familial and sociocultural contexts and then tailoring interventions that take full advantage of the religious, social, educational, familial, and legal institutions that shape an individual's experiences and beliefs. The authors begin with a trenchant critique of traditional mental health training in which they expose built-in cultural and historical biases that effectively hobble a trainee's ability to think multiculturally. They next explore a range of assessment issues, describe clinically validated techniques for treating culturally diverse children, parents, and couples, and outline best practices in report writing for linguistically and culturally diverse clients. In their discussion of clinical issues that arise when dealing with culturally diverse families, they detail a proven Multicultural Multimodal Multisystems Multi-CMS approach to intervention. Returning to the topic of education in the final section, they outline the major competencies needed to develop a trainee's multicultural skills and offer valuable training suggestions for professors and clinical supervisors. Describing a dynamic new approach to cross-cultural assessment and treatment, *Cross Cultural Practice* is valuable reading for both professionals and students in mental health. A dynamic new approach to cross-cultural assessment and treatment. The Global Village presaged by Marshall McLuhan in the 1960s has arrived with a vengeance. For many mental health professionals, this brings with it the daunting challenge of working with patients with a vast array of beliefs, values, customs, and behaviors. This groundbreaking book helps clinicians meet the challenge of assessing and treating diverse clients by arming them with a bold new multicultural approach. Using numerous case examples drawn from their years of practice with Asian, Caribbean, African American, and Hispanic clients, the authors describe proven techniques for assessing culturally diverse children, parents, and couples. Develop a proven Multicultural Multimodal Multi-systems Multi-CMS approach to intervention. Expose the cultural biases at the core of conventional mental health training. Outline the major competencies needed to develop a trainee's multicultural skills and develop alternative approaches to clinical training.
