Back to the Stone Age Ben Pitcher, 2022-12-15 Prehistoric human life is a common reference point in contemporary culture inspiring attempts to become happier healthier or better people Exploited by capitalism overwhelmed by technology and living in the shadow of environmental catastrophe we call on the prehistoric to escape the present and to model alternative ways of living our lives In *Back to the Stone Age* Ben Pitcher explores how ideas about race are tightly woven into the powerful origin stories we use to explain who we are where we came from and what we are like Using a broad range of examples from popular culture from everyday practices like lighting fires and walking in the woods to engagements with genetic technologies and Neanderthal DNA from megaliths and museum mannequins to television shows and best selling nonfiction Pitcher demonstrates how prehistory is alive in the twenty first century and argues that popular flights back in time provide revealing insights into present day anxieties obsessions and concerns *Back to the Stone Age* shows that the human past is not set in stone By opening up the prehistoric to critical contestation Pitcher places racial justice at the centre of questions about the existence and persistence of *Homo sapiens* in the contemporary world

Migrant Care Workers Karen Christensen, Ingrid Guldvik, 2016-04-22 In this beautifully argued book Karen Cristensen and Ingrid Guldvik provide a comparatively based insight to the historical context for public care work and show how migration policies general welfare and long term care policies including the cash for care schemes as well as cultural differences in values in the UK and Norway set the context for how migrant care workers can realise their individual life projects Through viewing migrants as individuals who actively construct their lives within the options and conditions they are given at any time they bring to the discussion an awareness of what might be called a new type of migrant one who is neither a victim of the divide between the global north and the global south nor someone leaving family behind but individuals using care work as a part of their own life project of potential self improvement

Brokering Britain, Educating Citizens Melanie Cooke, Rob Peutrell, 2019-09-16 This book addresses the politically charged issue of citizenship and English language learning among adult migrants in the UK Whilst citizenship learning is inherent in English for Speakers of Other Languages ESOL the book argues that top down approaches and externally designed curricula are not a productive or useful approach Meaningful citizenship education in adult ESOL is possible however if it brings social and political content centre stage alongside pedagogy which develops the capabilities for active grassroots participatory citizenship The chapters deliver a detailed examination of citizenship and ESOL in the UK They address a range of community and college based settings and the needs and circumstances of different groups of ESOL students including refugees migrant mothers job seekers and students with mental health needs The book draws attention to

the crucial role of ESOL teachers as brokers of citizenship mediating between national policy and the experiences and needs of adult migrant students The book links together language pedagogy and citizenship theory with the practical concerns of ESOL teachers and students A Resident's Guide to Psychiatric Education M. Thompson,2012-12-06 This is the inaugural volume of the new series Critical Issues in Psychiatry An Educational Series for Residents and Clinicians It is an appropriate beginning for this book represents a milestone in the evolution of psychiatric education For the first time there will now be a single place where one can find a comprehensive collection of educational goals and objectives to define the broad spectrum of knowledge and skills essential for general and child psychiatry This collection does not represent the bias of a single educator or program Rather it consists of a consensually validated ranking of relative importance for each educational goal and objective as determined by a large and international sampling of experienced psychiatric educators as well as an editorial board with some of the most distinguished names in psychiatric education It is even possible to tell at a glance whether the ranked level of importance is the same or different within several national groups for example Canadians vs Americans This book is intended for all students of psychiatry It is particularly valuable to residents in training but equally so for experienced clinicians preparing for Board examination or simply attending to the process of continuing education and intellectual renewal While it might well be used by an institution to delineate the dimensions of a training program in psychiatry it is intended primarily for the self evaluation and self monitoring of one's growth as a psychiatrist **Handbook**

Calling for the Super Citizen Elisabeth Badenhoop,2023-07-31 This book offers the first empirical and holistic analysis of the design implementation and effects of the new naturalisation regimes in the United Kingdom and Germany introduced in the 2000s Based on a multi sited state ethnography it uniquely compares the law on the books the local administration and the lived experiences of citizenship tests courses and ceremonies from an interdisciplinary social science perspective The book argues that naturalisation procedures in both countries suggest to migrants to constantly optimise themselves in the state's interests toward the subjectivity of the Super Citizen a political economic and cultural asset to the liberal democratic capitalist nation state The concept of the Super Citizen enables us to highlight and criticise the overburdening expectations toward citizens by application as opposed to citizens by birth The analysis reveals that the self presentation of Britain and Germany as liberal and meritocratic polities is in stark contrast to migrants lived experiences of the naturalisation process By shedding light on naturalisation policies efficacy this book is aimed at students and scholars in sociology politics law anthropology and education as well as policy makers in the areas of citizenship and migration *Shakespeare and Sexuality in the Comedy of Morecambe & Wise* Stephen Hamrick,2020-02-18 Contextualizing the duo's work within British comedy Shakespeare criticism the history of sexuality and their own historical moment this book offers the first sustained analysis of

the 20th Century's most successful double act. Over the course of a forty-four year career (1940–1984) Eric Morecambe and Ernie Wise appropriated snippets of verse, scenes and other elements from seventeen of Shakespeare's plays more than one hundred and fifty times. Fashioning a kinder, more inclusive world, they deployed a vast array of elements connected to Shakespeare, his life and institutions. Rejecting claims that they offer only nostalgic escapism, Hamrick analyses their work within contemporary contexts, including their engagement with many forms and genres, including variety, the heritage industry, journalism and more. The Boys deploy Shakespeare to work through issues of class, sexuality and violence. Lesbianism, drag, gay marriage and a queer aesthetics emerge, helping to normalize homosexuality and complicate masculinity in the permissive 1960s.
