**The Color of Desire** Christopher Ewing, 2024-01-15 The Color of Desire tells the story of how in the aftermath of gay liberation race played a crucial role in shaping the trajectory of queer German politics Focusing on the Federal Republic of Germany Christopher Ewing charts both the entrenchment of racism within white queer scenes and the formation of new antiracist movements that contested overlapping marginalizations Far from being discrete political trajectories racist and antiracist politics were closely connected as activists worked across groups to develop their visions for queer politics Ewing describes not only how AIDS workers gay tourists white lesbians queer immigrants and Black feminists were connected in unexpected ways but also how they developed contradictory concerns that comprised the full landscape of queer politics Out of these connections which often exceeded the bounds of the Federal Republic arose new forms of queer fascism as well as their multiple antiracist contestations Both unsettled the appeals to national belonging or homonationalism on which many white queer activists based their claims Thus the story of the making of homonationalism is also the story of its unmaking The

Color of Desire explains how the importance of racism to queer politics cannot and should not be understood without also attending to antiracism. Actors worked across different groups making it difficult to chart separable political trajectories. At the same time antiracist activists also used the fractures and openings in groups that were heavily invested in the logics of whiteness to formulate new antiracist organizations and albeit in constrained ways shifted queer politics more generally.

years to heterosexual prostitution and sex tourism in Brazil gay sex tourism has been almost completely overlooked In *Tourist Attractions* Gregory C Mitchell presents a pioneering ethnography that focuses on the personal lives and identities of male sex workers who occupy a variety of roles in Brazil's sexual economy Mitchell takes us into the bath houses of Rio de Janeiro where rent boys cruise for clients and to the beaches of Salvador da Bahia where African American gay men seek out hustlers while exploring cultural heritage tourist sites His ethnography stretches into the Amazon where indigenous fantasies are tinged with the erotic at eco resorts and into the homes of kept men who forge long term long distance transnational relationships that blur the boundaries of what counts as commercial sex Mitchell asks how tourists perceive sex workers performances of Brazilianness race and masculinity and in turn how these two groups of men make sense of differing models of racial and sexual identity across cultural boundaries He proposes that in order to better understand how people experience difference sexually we reframe prostitution which Marxist feminists have long conceptualized as sexual labor as also being a form of performative labor *Tourist Attractions* is an exceptional ethnography poised to make an indelible impact in the fields of anthropology gender and sexuality and research on prostitution and tourism
