Pelton, This work is devoted to analyzing three major frames of justice group justice individual desert and life affirmation and their implications for social policy as well as their reflections in contemporary social policies Pelton finds that all three frames of justice are reflected in the Bible and later the Koran He contends that there is no evidence in the Bible of a genesis or development from one frame of justice to another Rather a sense of justice has existed in the human mind from time immemorial with the three frames coexisting and manifesting themselves in both inter and intra group relations The prominence of one frame over another at any particular point in history or in a particular geographical location is influenced by a variety of factors though it is ultimately open to human choice Pelton compares and contrasts the philosophies of nonviolence and liberalism in regard to the frames and explores the relationships between principle sentiment reason justice and policy He discusses social science s problematic relationship to justice in policymaking for instance how scholars have focused more on the effectiveness of policies largely in terms of statistical outcomes reflecting aggregate data analyses than on their justice He goes on to explore in depth how frames of justice give direction to social policies including those of genocide Frames of Justice is an outstanding work that analyzes the question of justice and social policy while simultaneously exploring the notion of desert in religion philosophy and legislation especially within the context of the moral question of the relationship between means and ends and contrasting it with the principle of life affirmation Leroy H Pelton is a professor in and former director of the School of Social Work University of Nevada Las Vegas and professor emeritus of the School of Social Work Salem State College Massachusetts He is the author of The Psychology of Nonviolence For Reasons of Poverty A Critical Analysis of the Public Child Welfare System in the United States and Doing Justice Liberalism Group Constructs and Individual Realities and the editor of The Social Context of Child Abuse and Neglect He has also written numerous journal articles on psychology social work child welfare and social policy *The Life of Ten Bears* Thomas W. Kavanagh,2016-01-01 The Life of Ten Bears is a remarkable collection of nineteenth century Comanche oral histories given by Francis Joseph Joe A Attocknie Although various elements of Ten Bears s life ca 1790 1872 are widely known including several versions of how the

toddler Ten Bears survived the massacre of his family other parts have not been as widely publicized remaining instead in the collective memory of his descendants Other narratives in this collection reference lesser known family members These narratives are about the historical episodes that Attocknie s family thought were worth remembering and add a unique perspective on Comanche society and tradition as experienced through several generations of his family Kavanagh s introduction adds context to the personal narratives by discussing the process of transmission These narratives serve multiple purposes for Comanche families and communities Some autobiographical accounts recounting brave deeds and war honors function as validation of status claims while others illustrate the giving of names still others recall humorous situations song ridicules slapstick and tragedies Such family oral histories quickly transcend specific people and events by restoring key voices to the larger historical narrative of the American West
