Hunting Practices of the Wachiperi Rodolfo Tello, 2016-12-14 When it comes to environmental conservation and sustainable development initiatives in tropical forests indigenous peoples are key players They have been described often as either conservationists or destroyers of biodiversity The position adopted on this matter is important because it guides the design and implementation of conservation strategies The central question about what makes indigenous peoples conserve or degrade biodiversity however has posed a significant challenge particularly in light of widespread trends such as cultural change market expansion and greater diversification of livelihoods The reasons why indigenous communities end up degrading or conserving natural resources are addressed in a comprehensive yet accessible manner in this book filling a critical gap in current knowledge about the socioeconomic drivers of biodiversity loss and the rise of community based conservation using the hunting trends and conservation efforts of the Wachiperi for this analysis Readers could greatly benefit from the lessons provided in this book about achieving both socioeconomic development and biodiversity conservation by engaging indigenous communities in a sustainable manner

Hunting Practices of the Wachiperi Rodolfo Tello, 2013-03-30 What makes indigenous peoples conserve or degrade biodiversity This book addresses this question in a comprehensive yet accessible manner In a context where indigenous ways of life can be significantly influenced by policies and practices guided by preconceived notions based on flawed assumptions this book fills a critical gap in current knowledge about the changing environmental behavior of indigenous peoples particularly in light of widespread phenomena such as cultural change market dynamics and greater diversification of livelihoods The flexible way of understanding the relationship between indigenous peoples and tropical biodiversity presented in this book can greatly benefit both people and the environment
