Instructor: Don Willard, CAMT, NAAED Faculty

Codes, laws and regulations change all the time. With so many governing bodies at the local, state and federal levels an update/refresher is always in order. This course will cover the main laws that regulate our industry. We all know that those regulations do not accept lack of knowledge of the rulings as a reason to escape the fines and violations that come from not adhering to the many rules, laws and codes. This class will cover....

- The new NEC electrical codes
- Plumbing and sanitation codes
- OSHA electrical, plumbing and safety requirements
- New HVAC and EPA requirements
- And much more

disease is continuously escalating Universal Health Coverage UHC is an initiative by World Health Organisation that
encourages policy makers in all countries in the world to organise their health systems that are responsive in providing
access to quality health care to every citizen in need of health services without facing the financial hardship Malaysia health
system has been well developed and was said to have achieved universal health coverage based on the easy access to
primary and secondary health care services in the public sector In this book we present our effort to assess if Malaysia
provides UHC for preventive curative and palliative to breast cancer patients At the inception of the study we embarked on
the development of a composite index to assess the overall status of UHC This is followed by an extensive research to explore
the extent of financial coverage for management of breast cancer Over 300 patients in various stages of the breast cancer
attending the selected public tertiary hospitals were interviewed and their medical records reviewed to assess their health
spending and to estimate the incidence of catastrophic health expenditure The book is the first of its kind that provides
comprehensive real world data on universal coverage for breast cancer patients in the world *Departments of Commerce,*
